The Insurance Company shall not under any circumstance be liable for the losses or damage caused by:

- a) Solidification of the materials in melting furnaces or melting pots.

5.-HYDRO METEOROLOGICAL PHENOMENON COVERED RISKS:

Based on the general and special conditions of the policy to which this endorsement is attached and with limit in the contracted sum insured, the material properties of the insurance are covered, against material losses or damage caused directly by mud avalanche, hail, frost, hurricane, flood, rain flood, sea impact, high tide, snow and stormy winds.

For the effects of the present policy, the following terms are defined as follows:

- a) **Mud avalanche:** Mud movement caused by rain or flood.
- b) **Hail:** Atmospheric precipitation of water falling with force with the shape of hard and compact ice crystals. Under this concept the damage caused by the obstruction of the hydro sanitary network and in the drain system located within the insured premises and in the rain downspouts due to the accumulation of hail, is also covered.
- c) **Frost-Weather:** phenomenon consisting on the unexpected decline of the temperature to levels equal or below freezing point of the water in the occurrence location.
- d) **Hurricane:** Flow of great magnitude of water and air, moving in circle trajectory around a low pressure center, over the sea or ground surface with peripheral speed of direct impact winds equal or faster than 118 km per hour that was identified as such by the National Meteorological Service.
- e) **Flood:** The temporary accidental covering of the ground by water, as a consequence of deviation, overflow or rupture of the contention walls of rivers, Canals, lakes, dams, ponds and other deposits or water currents, natural or artificial.
- f) **Rain Flood:** The temporary accidental covering of the ground by rain water as a consequence of the unusual and fast accumulation or flow of water originated by extraordinary rain that fulfill the following characteristics:
- that the rain reach at least 85% of the average indicated by the maximum of the zone of occurrence, in the last ten years, according to the procedure published by the Asociación Mexicana de Instituciones de Seguros (A.M.I.S.), measured in the closest meteorological season, certified by the National Meteorological Service of the Water National Commission or that the insured properties are within a flooded zone that it had covered at least one hectare.
- g) **High Tide:** Alteration of the sea that occurs with an elevation of its level due to a meteorological depression or perturbation which combines a reduction of the atmospheric depression and a cutting force over the sea surface produced by the wind.
- h) **Sea impact or tsunami:** Water Damage caused by the violent agitation of the sea water due to a movement in the bottom, that raises the sea level and reaches the coast originating floods.
- i) **Snow:** Precipitation of ice crystals with flakes form.
- j) **Stormy winds:** Winds that reach at least the category of tropical depression, tornado, degree 8 according to the Beaufort scale (62 km per hour) according to the National Meteorological Service or the records acknowledged by this.

The applicable coverage will be the one that originates immediately the direct damage to the insured properties, independently of the meteorological phenomenon that originates it

EXCLUDED PROPERTIES THAT CAN BE INSURED UNDER AN EXPRESS AGREEMENT.

The properties indicated below are excluded from the cover and can only be insured under an express agreement between the Insured and the Company, establishing separated sums insured as sub-limit and through the charge of a corresponding additional Premium. The Company will provide a written document for this.

1. Finished buildings that lack roofs, walls, doors or windows totally or partially, as long as such buildings were designed and/or constructed to operate under those circumstances, according to the construction rules of the zone in force on the construction date.
2. Fixed machinery and/or equipment and their installations that are totally or partially outdoors or that are within the buildings that lack roofs, walls, doors or windows totally or partially, as long as such buildings were designed and/or constructed to operate under those conditions and that are properly anchored.
3. Fixed properties different to machinery that due to their own nature are outdoors, understanding as those that are outside buildings or inside buildings that lack roofs, walls, doors or windows totally or partially, such as:
 - a) Pools.
 - b) Ads and inscriptions.
 - c) Roads, promenades, streets, patios inside the insured premises.
 - d) Decorative elements of the outdoor areas.
 - e) Installations and/or sport courts.
 - f) Luminaires.
 - g) Armed concrete contention walls fences, gates and/or perimeter mesh and their doors.
 - h) Huts and pergolas.
 - i) Irrigation systems, including their pipeline networks.
 - j) Towers and transmission and/or reception antennas.
 - k) Tanks or metallic silos of plastic materials.
4. Mobile properties or the portion of the non-mobile in basements or semi basements, considering as such: any place where the total walls or perimeter walls are under the total or partial natural ground level.

- s) Contention walls made with materials different to the armed concrete.
- t) Properties located in zones considered by the Civil Protection General Direction or their Regional Direction as having high risk of flood or mud avalanche.

2. Excluded Risks.

This Company will not be liable under any circumstance for loss or damage to:

- a) **Wetness or humidity or consequences due to leakage:**
 - From groundwater or phreatic waters.
 - For deficiencies in the design or construction of ceilings, walls or floors.
 - For cracks or fractures foundations or retaining walls.
 - By misapplication or deficiencies of waterproofing materials.
 - Due to lack of maintenance.
 - For lack of ceilings, doors, windows or walls or openings therein, or construction deficiencies of them.
- b) **Wettings, wind, hail, snow or rain inside buildings or their contents unless they are caused by the fact that the buildings have been destroyed or damaged ceilings, walls, exterior doors or windows by the direct action of wind or water or snow or hail or the accumulation of these, causing cracks or openings through which they entered the water, hail, snow or wind. This exclusion does not apply to cases of flood or flooding rain.**
- c) **Corrosion, rust, erosion, mold, pests of all kinds and any other gradually as a result of environmental degradation and natural conditions.**
- d) **The receding water sewer and / or missing or insufficient drainage on the premises of the Insured.**
- e) **The natural course of the tide.**
- f) **Flood, rain or mud flows that are confined only to the locations where the client property are insured.**
- g) **Direct contamination by rainwater, unless physical harm occurred covered under this endorsement to the insured premises.**
- h) **Scour to buildings that are located in the first line of construction to the sea, unless they are protected by retaining walls with reinforced concrete foundations or protected by breakwaters with reinforced concrete tetrapods. An exception to this exclusion to buildings and their contents that are more than 50 meters from the line of breaking waves at high tide or more than 15 meters above sea level at high tide.**
- i) **Damage or predate the inception date of this insurance, whether or not that knowledge of the Insured losses.**
- j) **Loss or damage of any kind caused by faulty construction or design, or lack of maintenance of the subject property insurance.**

- k) **Damage caused by pollution, unless the goods covered suffer direct damage caused by covered perils, causing pollution to the goods covered. Neither will not cover losses or expenses caused by cleaning or decontamination of the environment (soil, groundwater, air or water).**
- l) **Any material or consequential damage resulting from the lack of water supply, electricity, gas or any raw materials or supplies even if the lack of supply is the result of a hydrometeorological event.**
- m) **Rapine, theft, disappearance, looting or theft that occur during or after a hydrometeorological event.**

HYDROMETEOROLOGICAL RISK DEDUCTIBLE

Each claim for property damage caused by perils covered by this risk, or debris removal, if this coverage was hired, there will always be the responsibility of the insured equivalent to the percentage amount shown in the table below the value actual or replacement cost of the insured property as it has contracted in this policy.

Zone	Deductible	Deductible for locations on the shore of an ocean, lake or lagoon or with glass walls or walls made of light materials or closed buildings with palm roofs */
Alpha 1, Yucatan Peninsula	2%	5%
Alpha 2, South Pacific	2%	5%
Alpha 1 Gulf of Mexico	2%	5%
Alpha 1 Rest of Mexico	2%	2%
Alpha 2	1%	1%
Alpha 3	1%	1%

*/also considers buildings closed with hard walls and palm, guano, shingle, Straw or grass roofs.

The deductible will be applied separately regarding each building and its contents. If the insurance includes two or more buildings or its contents, the deductible will apply separately to each of them.

When it consists on the properties insured under an express agreement, the applicable deductible will be 15% of the sum insured contracted for these properties in the affected location.

If by the time of contracting the insurance the Insured declared on time the properties insured under the express agreement, indicating the details of their value, the applicable deductible will be 15% over the declared value that the outdoor properties have all together.

In case they contracted consequential loss covers, the deductible indicated in the policy cover and/or cover specification will be applicable.

In case of having contracted the earthquake and hydro meteorological risks for the same location and if an event occurred that may cause direct damage that could be indemnified by the earthquake and sea impact, only one deductible will be applicable, the one of the risk whose stipulated deductible results higher.

COINSURANCE OF HYDRO METEOROLOGICAL RISKS.

It is an indispensable condition to grant the present cover, that the Insured absorbs 10% of all compensable loss or damage that may occur to the properties Insured, and to the consequential losses and debris removal, if these covers were contracted.

For properties insured under an express agreement, the applicable coinsurance will be 20% of the loss amount compensable damage.

For the Sea impact cover, the Co-insurance will be the one indicated in the earthquake cover, according to the fee from the Asociación Mexicana de Instituciones de Seguros (A.M.I.S.).

These coinsurance are applicable after discounting the applicable deductibles.

INTEGRATION OF CLAIM CAUSED FROM HYDRO METEOROLOGICAL EVENT

All losses originated by the risks covered and the properties covered are considered as only one loss, if they occur during one event that continues for a period up to 72 hours, starting when the damage begins to the insured properties for all risks indicated in Clause 1, except for flood, for which the period extends up to 168 hours. Any event that exceeds 72 consecutive hours for all the risks mentioned in Clause 1, or of 168 hours for flood, it will be considered as two or more events, taken in multiples of the limits indicated.

ANTICIPATED TERMINATION OF CONTRACT

Notwithstanding the termination period of the contract, the parties agree that it can be terminated in advance with a written notification. When the Insured decides to terminate the contract, the Company will have the right to keep the premium that corresponds to the time of the insurance cover period that had been established, according to the insurance fee at short period (In percentage of the annual premium):

Period of time	Percentage of the annual premium
Up to 1 month	35%
Up to 2 month	50%
Up to 3 month	65%
Up to 4 month	80%
Up to 5 month	95%
More than 5 months	100%

When the Company may consider it terminated, they will present a notification to the Insured, and the termination of the insurance will become effective 15 days after receiving the corresponding notification.

The Company should refund the unearned Premium, when presenting such notification, without such request it will be considered not made.

6. EARTHQUAKE AND/OR VOLCANIC ERUPTION

INSURED RISKS AND PROPERTY

The property insured under the terms of section I (fire-building) of this policy is also covered, for up to the limit of the sum insured, against direct material loss or damage caused by earthquake and/or volcanic eruption.

The damage covered under the terms of this endorsement which is caused by earthquake and/or volcanic eruption shall give rise to a separate claim for each such phenomenon. However, if more than one earthquake and/or volcanic eruption occurs during any consecutive period of 72 hours, encompassed within the policy period, this will be deemed to be a single loss and the damage caused will be included in a single claim.

Excluding the value of any improvements (whether required by the authorities or not) so as to provide for the greater stability of the affected building(s) or for any other purpose, beyond the repairs required to return the property to the same conditions as those which existed at the time of the loss.

EXCLUDED PROPERTY WHICH CAN BE INSURED UNDER AN EXPRESS AGREEMENT

Unless there is an express agreement to the contrary, the company will not be liable for damage of the type insured under the terms of this endorsement, caused to:

- a) Foundations, swimming pools, fences, exterior patios, exterior stairways and any other constructions which are separate from the buildings or buildings or constructions which are expressly insured under the terms of the policy.
- b) Containment walls below the lowest floor level or independent containment walls.
- c) Consequential loss, in accordance with the terms of the corresponding endorsement.

EXCLUDED PROPERTY AND RISKS THAT CANNOT BE COVERED WITHIN THE EARTHQUAKE AND/OR VOLCANIC ERUPTION COVER

The company will not, under any circumstances, be liable for damage of the type insured under the terms of this endorsement, caused:

- a) To land and soil.
- b) Any type of frescos or mural which for decorative or ornamental purposes are part of the insured building or constructions.
- c) Directly or indirectly, proximately or remotely by nuclear reaction, radiation or radioactive contamination, whether controlled or not, and whether or not as a consequence of earthquake and/or volcanic eruption.
- d) By tidal wave or flooding, even though caused by any of the risks covered under the terms of this insurance.
- e) By vibrations, natural movements of the subsoil which are unrelated to earthquake, such as sinkholes, displacement and normal settling which does not occur suddenly.

EXCLUSIONS FOR SECTIONS I AND/OR II CONTENTS FIRE AND ADDITIONAL RISKS

The Company will, under no circumstances, be liable for the loss of or damage to:

- a) Machines, devices, accessories that are used to generate, transform or use normal electric current, or current variation of the system, regardless of the cause (internal or external)**
- b) Fermentation, own vice for any heating or drying procedure, change of temperature or humidity that the properties could have been submitted to.**
- c) Any types of titles, obligations or documents, postal or fiscal stamps, checks, letters, promissory notes, accounting books or other commerce books**
- d) Tapes, films, discs or any other magnetic registry.**
- e) Loss of information of programs contained in Electronic Equipment as well as the expenses incurred by the Insured for the search and/or reconstruction of the information.**
- f) Gradual damage, corresponding to the damage that occurs slowly as: Contamination, putrefaction, own vice, change of environmental temperature, humidity, dryness, corrosion,**

FORMS OF INSURANCE FOR THE SECTIONS I AND/OR II

Based on the General and Particular Conditions of the Policy, the Company grants the following Insurance Forms, as long as they are indicated in the Policy Specifications.

1.-DEDUCTIBLE AGREED FOR THE COVERS OF FIRE, LIGHTNING AND EXPLOSION

When insured by express agreement and written in the Policy Specifications, it will be subject to the following: When requested by the Insured and according to this Clause, Section I and/or II of the Policy can be contracted with deductible, understanding as such, the amount that in case of compensable loss or damage, will be absorbed by the Insured.

The deductible will be applied according to the Sum Insured in force by the time of the loss occurrence, which appears in the policy cover, according to the Insured's request.

Also the insurance can be contracted by fire areas, which will be specified in an attachment for such effect.

The fire areas, are those installations that belonging to the same Insured premises, are separated among them for a distance of more than 15 meters, being of hard construction, of non-flammable materials, or of 30 meters distance in case it is not a hard construction and with combustible materials, or that they have, handle or process combustible materials, or that they have, handle, process or store flammable materials.

In each claim for material damage caused to the properties insured by this Policy to which this cover is added as consequence of fire and/or explosion, the deductible established will be applied over the Sum Insured of the Fire Area where the loss occurred.

However, to avoid that the Insured supports two or more deductibles, as consequence of only one loss, two or more fire areas are affected, the total deductible that the Insured will absorb, cannot exceed in absolute terms the highest deductible for a fire area within the same premises, even if such area was not affected by the loss.

The deductibles will be applied for every loss that occurs during the Policy Cover Period.

For outdoor properties, as consequence of only one loss, affecting two or more areas of fire the total deductible that the Insured will absorb, cannot exceed in absolute terms the highest deductible for a fire area within the same premises, even if such area was not affected by the loss.

The Insured is committed not to take additional insurances, covering properties quoted under the deductibles system, unless they are issued under the same base and conditions.

The infraction for the Insured, regarding what is stipulated in the previous paragraphs, could limit or terminate the liability of the Company, as a consequence being subject to what is stipulated in Item 52 of the Insurance Contract Law.

2.-AGREED COINSURANCE OF FIRE, LIGHTNING AND EXPLOSION

When insured by an express agreement and written in the Policy Specifications, it will be subject to the following:

1. The coinsurance system agreed, operates for all material properties and is applicable to the fire cover and additional risks contracted by the Insured, except hydro meteorological, earthquake and/or volcanic eruption risks, as well as to the consequential loss insurance, in any of their variations, cotton and oil risks and allows to cover the properties in a lower amount to their actual replacement value, as contracted.

The total Sum Insured results from multiplying the value at 100% of the properties for the coinsurance percentage selected by the Insured or determine the total maximum liability of the Company during the Policy Cover Period, in case the loss amount exceeds such Sum Insured, the difference will be absorbed by the Insured.

For the effects of this cover, the Insured is obliged to provide:

- a) The value at 100% of the properties at the beginning of the Policy cover period, as well as to inform the Company of any change in such value during the cover period, and establish it in the Policy.
- b) The coinsurance percentage selected and agreed.

For the effects of this cover, there will be no application of what was indicated in the Clauses: Errors or omissions, automatic cover for new items unknown, automatic cover for known items, properties subject to declaration (Guarantee Clause), resignation of inventories and compensation between items.

The value at 100% of the properties or insurable interests was fixed by the Insured and is not proof of the existence, nor of the value of the properties, therefore in case of a compensable loss, the 4th Clause "Indemnity Proportion" from the Sixth Part of these conditions will be applicable.

All indemnity that the Company pays will reduce in same amount the Sum Insured and could be re-installed upon the Insured's request, who will pay the corresponding Premium.

If the Policy comprehends various items, what is indicated here, will be applied for each one separately.

3.-ENDORSEMENT OF REPLACEMENT VALUE FOR FIXED ASSETS

When insured under express agreement and written in the Policy Specifications, it will be subject to the following:

a) Cover Extent.

Based on the general conditions of this policy and the particular additional covers, as well as the special covers of this endorsement, having more importance the last ones over the two previous ones, if opposed, the Company agrees in case of loss to cover the properties subject to this endorsement, which should be the same to the Replacement Value or as established further on.

In partial losses, consisting on machinery with various parts, the indemnity will be limited to the proportion that the part that suffered the damage has, related to the total replacement value of the property.

b) Replacement Value Definition.

The term Replacement Value means the sum that is required for the construction and/or replacement when it consists on non-mobile properties and/or purchase, installation or repair when it consists on machinery and/or equipment of the same class, quality, size and/or production capacity as the insured properties, without considering any deduction for physical depreciation, but including the cost of freights, custom rights, and assembly costs if any.

c) Valuation of Properties.

The requisition to contract this endorsement, the elaboration of an appraisal by an expert, made within the last year.

d) Sum Insured.

In any part where the term Sum Insured appears printed in the policy to which this endorsement is attached, it will be replaced for the Replacement Value, as defined in number 12 of this endorsement.

e) Indemnifiable Proportion.

In partial losses, if the sum insured of the indicated policy were lower than the replacement value at the time of the loss, Clause 4 of the General Conditions of the Policy will be applied.

f) Procedure in case of Loss

The Insured accepts that in case of loss and once the indemnity is agreed, the Company pays the amount of the properties based on their actual value, and regarding the difference of this value and the replacement value, it will be indemnified when the Insured proves that they incurred at least 50% of the cost of the construction, reconstruction and/or repair work, when referred to machinery.

g) Exclusions.

The Company shall not be liable in any case under these Clauses:

I.I. For any additional expense derived from the need or desire of the Insured, of building or replacing the damaged properties in a different place they occupied when the loss occurred.

I.II. For any additional expense in excess of the replacement value motivated by laws or rules of construction, repair or replacement of the damaged properties.

I.III. For the damage or losses suffered by rare or art objects.

I.IV. For the difference between the Actual Value and the Replacement

Value in case of loss or damage, that affect properties that are permanently out of use or useless, or those that are not built or re-built, replaced or repaired whether of buildings or machinery and equipment.

I.V. For any amount higher than the Replacement Value of the damaged parts when the loss or damage affects one of those parts of the covered property.

4.-STOCK FOR DECLARATION

When covered by express agreement and written in the Policy specifications, it will be subject to the following:

- A. Coverage granted exclusively to merchandise stock deposited in warehouses and /or wholesale storages, merchandise in outlay, as well as raw material stock, merchandise under elaboration process, elaborated and in general stock related to the Insured business, located in the locations described in the Policy.
- B. The declaration of the insurance amount will be monthly, and according to the case, over:
 - The average of daily balance, or
 - The stock in one pre-determined date.
 - If the Policy has several items, the declaration will be separated for each item.
- C. In case the monthly declaration is not made within the 60 days following the corresponding month, the Company will consider for the Premium adjustment, the maximum liability of the Policy of any of its items as declaration for that month.
- D. By the end of the contracted period, the declarations presented by the Insured, an average will be obtained and the result will be applied to the fee or fees established in the Policy in order to determine the earned Premium. Any difference between the paid Premium and the earned Premium, will result in favor of the Insured. If the Policy has various items, the estimate of the Premium will be over each item separately.
- E. The minimum Premium that will be earned by the Company under this insurance will be 37.5% of the annual Premium calculated over the maximum covered liability. If the Policy has various items, the minimum Premium will be retained by each item separately.
- F. When issuing this insurance, the Premium, will be the resulting Premium calculated over the maximum covered liability, or the corresponding premium for the contracted period when it consists on short term insurance; however if the Insured decides to pay the Premium in fractions, it will be subject to the specification in Clause 6 "Premiums" from the Sixth Part of these Conditions.
- G. The present cover can be terminated by any of the two parties at any moment, according to what is written in Clause 18, Anticipated termination of Contract" from the Sixth Part of these Conditions.
- H. If the Insured asks for the early termination of the Policy of any of its items, the return of the Premium will be subject to whether the Company retains the minimum Premium established in item "E". If the Company determines the termination of the cover, they will return all the earned Premium overlooking what is stipulated in such item.
- I. It is specifically agreed and understood that the Company will not be liable for a higher proportion of any loss, than the amount of the maximum liability established, regarding the actual value of the insured property, by the time the loss took place.

- J. The Company will not respond for a higher proportion of the loss than the one that exists between the value declared in the last periodical report received by the Company, before the occurrence of the loss, and the actual value that the insured property had by the date of the corresponding report, when the declared value results below the actual value.
- K. Notwithstanding indicated in contrary in Clause 10 “Reduction and Re-installation of Sum Insured” from the Sixth Part of these Conditions, the Company assumes the obligation to maintain his liability in force all the time up to the maximum sum specified in the Policy or in any of its items, and on the other hand, the Insured is obliged, in case of the occurrence of a loss that deserves indemnity under this cover, to pay the Company the Premium that corresponds for the remaining term of the Policy since the date of the loss up to the expiration of the insurance over the indemnified sum over the annual fee.
- L. This Premium will be considered earned, therefore it will not be considered in the final adjustment of the premiums.

5.-FLOATING INSURANCE

When insured by an express agreement and written in the Policy specifications, it will be subject to the following: It is understood as Floating insurance one who's Sum Insured covers merchandise contained in endorsement plus separated locations.

In case of a loss in any of the locations insured by this cover, the value of the merchandise contained in all the locations indicated in the Policy will be considered, for the effects of the application of Clause 4 “Indemnity Proportion” from the Sixth Part of the General Conditions of this Policy

6.-DIFFICULT OR IMPOSSIBLE OBJECTS REPLENISHMENT

When insured by an express agreement and written in the Policy specifications, it will be subject to the following: Through this Clause, it covers: Work of arts, antiques, collections or other objects difficult or impossible to replace, as long as it is based on a previous appraisal, pre-written made by an expert contracted by the Insured, and his appraisal should be incorporated to the policy.

For the effects of this cover, one of the following clauses should be included in the policy:

- A. For all type of insured except establishments dedicated to the purchase / sale of items:

“It is understood and agreed, notwithstanding what is established in the general conditions of the policy, that the valuation of the objects difficult or impossible to replace covered by the policy, the inventory annexed to the policy has been taken as base, with a copy of the appraisal of each object conducted previously by the expert contracted by the Insured”.

- B. Regarding the insurance for establishments dedicated to the purchase / sale of items:

“It is understood and agreed, notwithstanding what is established in the general conditions of the policy, that the valuation of the objects difficult or impossible to replace covered by the policy, the purchase value incurred by the Insured has been taken as base for each object, same that will be used as base for the payment of each covered claim, therefore the Insured is obliged to have a stock record that show the purchase value of each object and which inventory should be kept in a fire proof safe, as long as they don't make use of it.”

7.-PROPERTIES IN REFRIGERATING ROOMS OR DEVICES

When insured by an express agreement and it is written in the Policy specification, it will be subject to the following:

The insurance regarding properties in refrigerating rooms or devices could be extended to cover the damage that occurs from the change of temperature, as long as such change is produced by any of the risks covered by the policy that avoid the operation of the refrigerating devices.

The policies issued under this condition should include the following:

CLAUSE.

“This policy covers the damage suffered by the insured properties that occurs from the change of temperature, as long as such change is produced by any of the risks covered by the policy”.

8.-PROPERTIES IN INCUBATORS

When insured by an express agreement and written in the Policy specification, it will be subject to the following:

The insurance regarding properties in incubators could extend to cover damage that occur from the breakdown of incubators, as long as such breakdown is produced by any of the risks covered by the policy.

The policies issued under this condition should have the following:

CLAUSE.

“The policy is extended to cover the damage that occurs from the breakdown of incubators, as long as such breakdown is produced by any of the risks covered by the policy.

9.-AUTOMATIC COVER FOR CONTRACTED ITEMS

When insured by an express agreement and written in the Policy specification, it will be subject to the following:

Through this cover the Company covers automatically any increase of Sum Insured under the Policy, without exceeding the contracted amount and that is established in the cover page of this Policy, for one and more locations, whether such Sum Insured increase is produced for acquisition of other properties, purchased or acquired in lease by the Insured, for which he is legally responsible, as long as such properties are contained in the location mentioned in the Policy cover page.

In consideration of the obligation assumed by the Company to maintain his liability at all time as mentioned above, on the other hand, the Insured is committed to notify the Company within the 30 days following the date when the increase of the Sum Insured is produced, as well as to pay the corresponding Premium.

It is understood and agreed between the parties that this automatic cover will not be effective, when between the dates of the occurrence of a loss and the moment when the increase of the Sum Insured is produced, there is a period of more than 30 days that the Insured did not declare them.

This cover is not applicable to those properties subject to the cover “Stock in declaration”.

10.-AUTOMATIC COVER NEW ITEMS OR NOT CONTRACTED ITEMS

When insured by an express agreement and written in the Policy specification, it will be subject to the following:

Through this coverage, all the purchase of properties incurred by the Insured are covered automatically, related to the operation of his business and located in locations not described in this Policy, without exceeding the Sum Insured contracted and established in this Policy, for one or more locations not mentioned in the same.

In consideration of the obligation assumed by the Company to maintain his liability at all time as mentioned above, on the other hand, the Insured is committed to notify the Company within the 30 days following the date when the increase of the Sum Insured is produced, as well as to pay the corresponding Premium.

It is understood and agreed between the parties that this automatic cover will not be effective, when between the dates of the occurrence of a loss and the moment when the increase of the Sum Insured is produced, there is a period of more than 30 days that the Insured did not declare them.

11.-COMPENSATION BETWEEN ITEMS

When insured by an express agreement and written in the Policy specification, it will be subject to the following:

The Company accepts, that in case of a compensable loss under the Sections I and/or II the Sums Insured for one location are compensated between them, therefore the base for the application of Clause 4 "Indemnifiable Proportion" from the Sixth Part of these conditions, will be the total of the Sum Insured contracted for such Sections.

12.-INSURANCE AT FIRST RISK

When insured by an express agreement and written in the Policy specification, it will be subject to the following: It is understood and agreed that the Policy will operate at first risk based on the following:

1. The system at first risk operates for all the material properties and is applicable to the covers of fire and additional risks contracted by the Insured, except earthquake and volcanic eruption, as well as to the insurance of consequential loss in any of its variations, cotton and oil risks and allows to cover the properties in an amount below its actual or replacement value.

For this cover to become effective the Insured is obliged to provide:

- a) The value at 100% of the properties at the beginning of the policy, as well as to inform the Company of any change on such value during the cover period and establish it in the Policy.
- b) The total Sum Insured at first risk, and in case
- c) The sub-limits at first risk, whether by type of property, location and/or maximum probable loss.

2. The Sum Insured at first risk determines the maximum liability of the Company during the Policy cover period: also, if the first risk is granted for two or more locations, the maximum liability of the Company will be limited by the declared value of each location.

3. As a consequence, the 4th Clause "Indemnifiable Proportion" from the Sixth Part of these General Conditions is modified, as follows:

The total replacement value of the properties covered and the Sum Insured Contracted at first risk, have been declared and fixed by the Insured, and they are not proof of the existence nor the value of the properties, they only represent the base to determine the maximum liability of the Company.

Therefore if by the occurrence of a loss, the properties have altogether a total replacement value higher than the value declared by the Insured, the Company will only respond proportionally to the damage caused.

For the effects of this cover, it will not be applicable what is indicated in the Clauses of: errors or omissions, automatic cover for known items, automatic cover for new items and not known, properties subject to declaration (Guarantee Clauses) resignation of inventories and compensation between items. Every indemnity that the Company pays will be the same as the Sum Insured and could be re-installed upon the Insured's request, who will pay the corresponding Premium.

If the Policy comprehends various items, what is indicated here, will be applicable for each of them separately.

13.-AUTOMATIC ADJUSTMENT OF SUM INSURED

When insured by an express agreement and written in the Policy specification, it will be subject to the following: Considering that during the Policy cover period, the monetary value of the insured properties, could have increased due to a general increase of prices, the Company agrees to increase automatically every month the Sum Insured in the same proportion of the of the monthly percentage increase indicated by the Consumer Price National Index, published by Banco de Mexico in their concept "General Index", up to a maximum percentage determined by the Insured through all the cover period, indicated in the Policy Cover period.

Premium

The Premium of this cover is a deposit and is equivalent to 35% of the annual Premium, originated from the maximum increase stipulated by the Insured.

The adjustment of the deposit Premium will be conducted at the end of the insurance cover period, considering as earned Premium 35% of what corresponds to the actual percentage of the accumulated increase by the expiration date of the Policy or its cancellation and the difference, if any, what results between the deposit Premium and the earned Premium, will be returned or charged to the Insured, no later than 30 days after the date when the corresponding adjustment should be done.

If the payment is not made within the period indicated, the Company will be obliged to pay moratorium interests according to the Clause "Moratorium Interest" from the Sixth Part of these Conditions.

Procedure in case of a loss.

For the effects of an indemnity in case of a loss, the original amount contracted will be considered, plus the corresponding amount of the increase suffered by the actual value of the properties from the beginning of the policy period up to the occurrence of the loss.

The determined amount, will be the base for the effects of the 4th Clause "Indemnifiable Proportion" from the Sixth Part of these General Conditions.

SPECIAL CLAUSES APPLICABLE TO SECTIONS I AND II

Based on the General and Particular Conditions of the Policy, the Company agrees to grant the following Special Clauses, as long as they are indicated in the Policy Specifications.

INVENTORIES RESIGNATION

In order to accelerate the indemnity in case of a loss, the Company will not require the Insured any appraisal of the property, if the total covered claim under the risks specified in the Policy, does not exceed 10% of the Sum Insured for each Section covered by the Policy.

- b) When by authority order or Insured's decision and if the insured properties were not affected by any of the risks covered by the Policy.**
- c) When the damage is conducted by any of the Risks excluded mentioned in the Second Part of the General Conditions of this Policy and the endorsements attached to it.**

SUM INSURED. DEBRIS REMOVAL.

The Sum Insured in this section operates at first risk, therefore the Insured is free to select the maximum amount to be contracted.

B. - EXTRAORDINARY EXPENSES

RISKS COVERED

The Company will indemnify the Insured when they incur extra expenses in order to accelerate the repairs they have to conduct as a consequence of a loss covered by Sections I and/or II of this Policy, in order to continue with the normal operations of the insured company.

However, the indemnity will not exceed the reimbursement of the expenses effectively conducted, properly supported, without exceeding the sum insured specified for this cover in the policy cover page, up to a maximum restoration period of six months.

For the effects of this cover, the extraordinary expenses correspond to the difference between the total costs incurred by the Insured to maintain his business in operation after the loss, less the operation cost of his business in normal conditions.

PARTICULAR CONDITIONS FOR THIS SECTION

This cover extends to cover the extraordinary expenses incurred by the Insured, without exceeding four consecutive weeks, when as direct result of the insured risks, the access to the premises is prohibited by order of the authorities.

It is a condition of this policy, that as soon as possible, after the occurrence of the loss, the Insured resumes totally or partially his business operations and reduces or avoids to the maximum, any extraordinary expense.

MAXIMUM LIABILITY

The liability of the Company is terminated when any of the following events occur:

- a) After having indemnified the Insured for the total Sum Insured contracted for this Section.
- b) After passing a 6 month period, counting from the date of the occurrence of the loss or the destruction of the insured properties.
- c) After finishing the restoration period.

C. - MERCHANDISE INSURANCE AND/OR FINISHED PRODUCTS AT NET SALE PRICE

COVERED RISKS

The Company agrees that if the insured merchandise and/or finished products were destroyed or damaged by Fire or Lightning or the contracted Additional Risks that may occur during the policy cover period, they will indemnify the Insured the damaged properties at Net Sale Price, as indicated below:

For the effects of the damage repair, the present cover, covers the merchandise and/or finished products at Net Sale Price, defined below, in case the insured properties are destroyed due to the Risk of Fire or Lightning and Additional Risks contracted.

The declared Sum Insured represents the Net Sale Price, defined below, of the merchandise and/or finished products insured, in the contrary the 4th Clause of the General Conditions of the Policy will be applicable.

For indemnity effects regarding the present cover, the Insured grants the Company authorization to revise the accounting books.

DEFINITIONS:

1. - NET SALE PRICE:

a) For the Manufacturer: The net sale Price for the wholesale dealer, which comprehends the profit for the product's sale.

b) For the Wholesale Distributor: The net sale Price to the retailer which comprehends the profit of the product's sale.

c) For the Retailer: The sale Price for the consumer, which is the profit expected from the product's sale.

In the three cases, we should discount taxes (I.V.A.), freights, dragging discounts, commissions and all expense not incurred by the Insured for not conducting the sale of the merchandise and/or finished product due to the loss.

2.-MERCHANDISE: Stock of properties not manufactured by the insured which they conserve for the sale.

3.-FINISHED PRODUCTS: Stock of products manufactured by the Insured, in the condition they must be to be packed, shipped or sold.

4.-VALUATION: It is understood that the Insured should fix the net sale Price for all merchandise covered by this policy, through the same valuation method.

D.-LOSS OF RENTS

COVERED RISKS

The Company will indemnify the damage suffered by the Insured, occurring from the rents they will not receive of the leased premises with contracts properly supported by the corresponding authorities, for being useless due to the occurrence of any of the risks covered in Section I, except the Hydro meteorological phenomenon and/or Earthquake and/or Volcanic Eruption.

It is understood that the indemnity period will be limited to the time required to repair properly, the premises described in the Policy.

The payment of the rents will cease when the tenant is reinstalled definitively in the address described in the Policy, or on the contrary, until he exhausts the contracted Sum Insured, without being limited by the termination of the Policy cover Period.

When the authorities prohibit access to the premises of which the rents insured, due to the damage caused to nearby buildings as a consequence of any of the risks covered by this Policy, the Company will grant the corresponding indemnity of a period of no more than 30 days of rent.

E. - INCOMES REDUCTION DUE TO BUSINESS INTERRUPTION ACTIVITIES

COVERED RISKS

The actual loss suffered by the Insured due to a business interruption as direct consequence of the destruction or damage caused by fire and/or lightning or the additional risks contracted in Sections I and/or II which support the direct material damage, except the Hydro Meteorological Phenomenon and/or Volcanic Eruption of the properties that constitute the insured business, up to the Sum Insured indicated in the cover page of this Policy.

However, the indemnity will not exceed from their "Incomes Reduction", less expenses and charges, which do not necessarily continue during the business interruption.

It also covers the expenses that need to be incurred in order to reduce the loss, but without exceeding the amount that had been reduced in effect.

Considering the fee applied to this Policy, the indemnity period covered by the same, in no case will exceed the number of contracted months.

The indemnity that the Company should pay for this insurance will be the incomes reduction that directly result from the business interruption, and only for that period which without exceeding from the contracted period, will be needed to rebuild, repair or replace with the proper diligence and promptness, the part of the insured properties that could have been damaged or destroyed.

Such period will start counting from the date of the loss and will not be limited by the expiration date of this cover. However, it is agreed and understood that the maximum indemnity of the Company will not exceed 100% of the actual loss suffered by the Insured. The indemnity will comprehend the normal expenses that should be incurred to resume the business activities, including the salaries that have to be paid for the business to operate normally again, with the same service quality they had before the occurrence of the loss.

The Insured should have insurances that cover the direct material damage that the property mentioned here could suffer by fire and/or lightning, whose total Sum Insured represents not less than 80% of the replacement value of the insured properties. Obliging to maintain such insurances in force without cancelling nor reducing them, while the cover period of this coverage lasts, and if necessary he will present the increase of the sum insured that will be required to maintain the amount within the minimum indicated; in case of the contrary, the Company could terminate the cover.

F. - LOSS OF PROFITS, SALARIES AND FIXED EXPENSES

COVERED RISKS

The loss of net profits, salaries and fixed expenses of the insured business, occurring from the operation of the buildings, structures, machinery, equipment and raw materials contained in them, as a consequence of the risks of fire and/or lightning or additional risks contracted in the Sections I and/or II, except the Hydro meteorological phenomenon and/or Earthquake and/or Volcanic Eruption, up to the Sum Insured indicated in the cover page of this Policy.

It also covers the expenses necessary to incur in order to reduce the loss, but without exceeding the amount that was reduced in effect.

Considering the fee applied to this Policy, the indemnity period covered by the same, in no case will exceed the number of contracted months.

If the business operations were interrupted due to the risks covered, the Company will be liable as mentioned below for the effective loss that the Insured may suffer during the indemnity contracted period, but without exceeding the amounts contracted for:

1. The loss or reduction of net profits of the business as a consequence of the business interruption, or the operations breakdown, caused by the loss.
2. The expenses that need to be incurred during a total or partial interruption of operations, but only in the measure that the business had produced to cover such expenses, if the loss had not occurred.
3. The salaries of the Insured's employees of the business covered by this Policy, as long as such salaries need to be paid during the total or partial business interruption, but only in the measure that the business had produced to cover such expenses, if the loss had not occurred

The Company will not be liable for any amount that had not been produced by the business, if the loss had not occurred. For that purpose, they should take into account the experience of the same business during the last financial year previous to the loss and the probable experience they could have, if it had not occurred.

The Insured should have insurances that cover the direct material damage that the property mentioned here could suffer by fire and/or lightning, whose total Sum Insured represents not less than 80% of the replacement value of the insured properties. Obliging to maintain such insurances in force without cancelling nor reducing them, while the cover period of this coverage lasts, and if necessary he will present the increase of the sum insured that will be required to maintain the amount within the minimum indicated; in case of the contrary, the Company could terminate the cover.

PARTICULAR CONDITIONS OF THIS COVER

- a. Raw materials. - If the business interruption of the Insured was due to the destruction or damage of the raw materials due to fire and/or lightning, the Company's liability would be limited to the period during which the destroyed or damaged raw materials would have made possible the business operation.
- b. Products under elaboration process.-This cover, subject to all limits and conditions within the Sum Insured, will include, if necessary, the time required, using the proper diligence and activity but without exceeding of thirty consecutive work days, to replace, any product in elaboration process that could have been damaged or destroyed while being in the premises occupied by the Insured's business, to the same manufacture condition it had when the loss occurred.
- c. Supplementary equipment and materials.-In case of a loss, all supplementary machinery, parts, equipment, materials, accessories, raw materials and products in process of elaboration exceeding the reserve that are property of the Insured or that could be controlled and used by him, should be used to return the insured business, in proper conditions to continue or resume operations.
- d. Liability limit.-If the Policy has various items, the Company's liability will not exceed the Sum Insured of the affected item, without being able to compensate the Sum Insured of this, with the rest of the items, even though they cover the insured loss.

G. - GROSS PROFITS NOT CONDUCTED IN COMMERCIAL OR INDUSTRIAL BUSINESSES.

COVERED RISKS

The actual suffered loss, resulting from the business interruption, as a consequence of the performance of the Fire and/or Lightning Risks or the Additional Risks contracted in the Sections I and/or II that cover the direct damage, except the Hydro meteorological phenomenon and/or Earthquake and/or Volcanic Eruption, up to the Sum Insured indicated in the cover page of this Policy.

However, the indemnity will not exceed from the reduction in their "Gross Profits", less expenses and charges that do not necessarily continue during the business interruption.

It also covers the expenses that are necessary to incur, in order to reduce the loss, but without exceeding the amount that had been reduced in effect.

The Company will only be liable during the time that is necessary, from the date of the damage or destruction to reconstruct, repair, or replace the part of the property that was damaged or destroyed, until it resumes the normal operations of the business, with the same service quality that existed immediately before the loss, without being limited by the expiration date of this cover.

To determine the indemnity, the previous experience to the date of the loss will be considered and the probable experience that could have been obtained if the loss had not occurred.

If the business operations were interrupted due to the risks covered, the Company will be liable up to the maximum limit indicated the Policy cover page which has been established by the Insured and represents the percentage contracted of the Gross Profits of his business, for the twelve months following initial date of the cover period. In case of indemnity, the Company will reimburse the Insured 100% of the indemnifiable losses under this cover, with limit of the contracted Sum Insured.

The Company will only be liable for a proportion not higher than the Insured percentage of 100% of the Gross Profits that would have been obtained during the 12 months following the initial date of the covered period, if the loss had not occurred.

The Sum Insured should represent the percentage that is contracted over the annual amount of the "Gross Profits", and in case it is lower, the 4th Clause will be applied "Indemnifiable Proportion" of the General Conditions.

The Insured should have insurances that cover the direct material damage that the property mentioned here could suffer by fire and/or lightning, whose total Sum Insured represents not less than 80% of the replacement value of the insured properties. Obliging to maintain such insurances in force without cancelling nor reducing them, while the cover period of this coverage lasts, and if necessary he will present the increase of the sum insured that will be required to maintain the amount within the minimum indicated; in case of the contrary, the Company could terminate the cover.

H. - SALARIES, WAGES AND FIXED EXPENSES FOR EARTHQUAKE AND/OR VOLCANIC ERUPTION

COVERED RISKS

Covers the actual and effective loss of the salaries and/or fixed expenses in the business located in the address indicated in Sections I and /or II, originated from the interruption of operations for damage to the insured properties in such Sections for earthquake and volcanic eruption, up to the Sum Insured indicated in the Policy cover page.

This cover is issued with the understanding that the Sum Insured represents 100% of the annual amount of the salaries and/or fixed expenses, for which in the contrary the 4th Clause of the General Conditions of the Policy will be applicable.

In consideration of the applicable cover, the indemnity period covered by the same, in no case will exceed the number of months contracted.

If the business operations were interrupted due to the risks covered, the Company will be liable as indicated in the annexed specifications, for the effective loss suffered by the Insured during the contracted indemnity period, but without exceeding:

1. The expenses that need to be incurred during a total or partial interruption of operations, but only in the measure that the business had produced to cover such expenses, if the loss had not occurred.
2. The salaries of the Insured's employees of the business covered by this Policy, as long as such salaries need to be paid during the total or partial business interruption, but only in the measure that the business had produced to cover such expenses, if the loss had not occurred

The Company will not be liable for any amount that had not been produced by the business, if the loss had not occurred. For that purpose, they should take into consideration the experience of the same business during the last financial year previous to the loss and the probable experience there could be, if it had not occurred.

The Insured should have insurances that cover the direct material damage that the property mentioned here could suffer by fire and/or lightning, whose total Sum Insured represents 100% of the replacement value of the insured properties. Obliging to maintain such insurances in force without cancelling nor reducing them, while the cover period of this coverage lasts, and if necessary he will present the increase of the sum insured that will be required to maintain the amount within the minimum indicated; in case of the contrary, the Company could terminate the cover.

I. - SALARIES, WAGES AND FIXED EXPENSES FOR HYDRO METEOROLOGICAL RISKS

COVERED RISKS

Covers the actual and effective loss of the salaries and/or fixed expenses in the insured business, that necessarily continue being incurred, resulting directly from the business interruption as a consequence of the direct physical damage or the destruction of the insured properties due to risks covered under the Hydro meteorological phenomenon endorsement.

It also covers the expenses that are necessary to incur, in order to reduce the loss, but without exceeding the amount that had been reduced in effect.

The Insured has declared the annual amounts estimated for their concepts of salaries and fixed expenses, same that are indicated in the face cover and/or in the specifications cover, being understood and agreed that in case these are below those they had during the last 12 immediate months previous to the date of the loss, the 4th Clause will be applied "Indemnifiable Proportion" stipulated in the General Condition of the Policy.

Considering the fee applied to this Policy, the indemnity period covered by the same, in no case will exceed the number of contracted months.

Without exceeding the indemnity period stipulated, nor the maximum liability limits established in numbers 1 and 2 mentioned below, the Company will be liable only during the necessary time, from the date of the damage or destruction, to rebuild, repair or replace the part of the property that had been damaged or destroyed and that is insured by this Policy, until the normal operations of the business are resumed immediately after the loss.

Based on the General Conditions printed in this policy, to which this cover is attached, the Company agrees, if the property described in the policy were destroyed or damaged by any of the risks contracted in the direct damage policy under the endorsement Hydro meteorological Phenomenon, that may occur during the cover period of this policy and the business operations were interrupted due to a covered risk, this Company will be liable as mentioned below, for the effective loss that the Insured suffers during the indemnity period contracted for:

First. The fixed expenses that have to be incurred during a total or partial interruption of operations, but only in the measure that the business had produced to cover such expenses if the loss had not occurred, up to a maximum liability limit indicated in the cover or specifications of this Policy.

Second. The salaries or wages of the workers that provide service to the Insured, In his business covered by this policy, as long as such salaries or wages have to be paid during the total or partial interruption of the business, but only in the measure that the business had produced to cover such salaries if the loss had not occurred, up to a maximum liability limit indicated in the cover or specifications of this Policy.

As the objective of this cover is to indemnify the Insured for the damage that occurs from the interruption of their business, the Company will not be liable for any amount that had not been produced by the business if the loss had not occurred. For the determination of the indemnity, the previous experience from the date of the loss and the probable experience after the loss, will be considered, if this had not occurred.

DEFINITIONS

The terms mentioned below have the following meanings:

1. Fixed Expenses.-The expenses that need to be incurred during a total or partial interruption of operations but only in the measure that the business had produced to cover such expenses if the loss had not occurred.

2. Maximum Liability Limits. - In singular or plural, the maximum sum(s) insured to be indemnified in case of a loss for the concepts of salaries, wages and fixed expenses, depending on the selected cover scheme, can be considered as independent values for a)expenses and b) salaries, or else be considered

as an only and combined limit in one value for these two concepts. The maximum liability limits in no case could be higher to the annual amount estimated for the concepts of salaries and fixed expenses.

3. Indemnity Period.-Is the period that starts from the date of the loss and within the cover period, and ends after the number of months stipulated in the cover period have passed, and within that same period when the business operations of the insured could be affected as a consequence of the referred loss and without being limited to the expiration of the cover term of this policy.

4. Salaries and Wages.-Economic remuneration for the work conducted by a person, established by a labor or service contract between the Insured and the worker(s), as well as the pre-established benefits whether by law related to the salaries or wages, as the social security fees, of the INFONAVIT, the SAR, etc. or also the one pre-established in the work collective contract.

5. Annual amount for the concepts of salaries, wages and fixed expenses. –The amount that the Insured has declared in the policy contract as reference value over the amounts that represent annually the salaries, wages and fixed expenses. Depending on the scheme of the contracted cover, they can be indicated as independent values for a) expenses and b) salaries and wages, or else as only one value for these two concepts.

ADDITIONAL CONDITIONS

1. Interruption by Civil Authority: Within the contracted indemnity period, this cover insures the actual consequential loss without exceeding two consecutive weeks, when as direct result of the damage for the covered risks to the insured properties or in adjacent premises, the access to the premises had been prohibited by orders of Civil Authorities.

2. **Resume of Operations and Use of other Properties:** As soon as possible, after the occurrence of any loss, it is obligation of the Insured to resume totally or partially their business operation insured by this cover and use if necessary and possible, other premises or properties if by these means the loss covered by this policy could be reduced, and such reduction will be taken into consideration when determining the losses that would have to be paid according to this contract.
3. **Supplementary Materials and Equipment:** All supplementary machinery, parts, equipment, materials, accessories, raw material and products in elaboration process, exceeding the reserve, that are property of the Insured or that could be controlled and used by him, in case of a loss should be used to set his insured business by this cover in conditions to continue or resume operations.
4. **Additional Exclusions:** This Company will not be liable for any loss resulting by damage or destruction of finished products, nor for the necessary time to reproduce any finished product that could have been damaged or destroyed, nor for any loss that could be caused by any order or law that rules the construction or repair of buildings, nor for the suspension, expiration or cancellation of any lease contract or concession, contract, request or order, nor for any other consequential loss.
5. **Reduction of Insured Expenses:** The Insured has the obligation of reducing as much as possible the insured expenses during the indemnity period, in order to reduce the loss.
6. **Accounting Registry or Books:** For indemnity effects of the present cover, the Insured authorizes the company to revise the accounting registries or books, as well as the official documentation.
7. **Causes for Cover Cessation:** The obligation of Insurers regarding this cover of consequential losses will cease in the occurrence of any of the following situations:
 - If after a loss, the Insured will suspend voluntarily his business and will not resume it, this cover will be cancelled and the Company will return the undue premium from the Date of the Loss.
 - If the business is closed during a consecutive period of twenty or more days.
 - If the business is given to a liquidator or trustee, whether by judicial order, by creditors agreement or by the Insured's will.

DEDUCTIBLE

In every claim caused by the risks insured by this cover, the Insured will always absorb an amount equivalent to the percentage or waiting days indicated in the cover page or cover specifications of the present policy.

COINSURANCE

It is an indispensable condition that the Insured supports, by his own account, 10% of all the indemnifiable loss or damage that may occur from the consequential losses. This coinsurance is applied after discounting the applicable deductibles.

INSURED'S OBLIGATIONS

It is stipulated that the Insured will have the following obligations for the effects of the present cover of consequential losses:

1. Have the insurance of physical damage due to hydro meteorological phenomenon that may allow him to repair and/or replace the direct material damage that the property described here could suffer to leave them in the

conditions they had before the occurrence of the loss obliging that during the cover period, they will keep such insurance in force, without cancelling nor reducing it, trying to make in every case, the increases required to keep it within the minimum indicated. In case of not fulfilling the above, the indemnity will be limited to the period in which the properties were repaired, in case the direct damage insurance existed.

2. Maintain in the regular course of their business from the initial date of this cover and ahead, a set of registries or books that show clearly and simple, a complete record of the operations conducted including all the purchases, sales and shipments, in cash as well as credit.

The term “complete record of the operations conducted” in the form used in the previous paragraph, has the intention of including in the mentioned set of books or registries, a complete list of all properties that are removed of such stock, whether by the Insured or by others even when they do not constitute technically purchases nor sales.

If the Insured’s business under this cover, were a touristic business, this “complete registry of operations conducted” should show all the reservations and operations conducted or use of services, including the costs generated by the loan of such services.

If the Insured’s business under this cover, were a manufacture type, this “complete registry of operations conducted” should show all the raw materials received and al the product manufactured with those, including the manufacture cost, and show the waste from the manufacture process and all the raw materials and manufactured products that are removed or taken from the described buildings.

3. Conserve and take care of all the books or records that at that moment his operated business is showing during the year on course and the immediate previous year.

The books and registries will be conserved by the Insured in a fire proof locked safe, during the night and at all time, while the building or buildings mentioned in the Policy are not opened effectively for businesses, or in case he does not have the above, the Insured will keep such books and registries in a safe place, not exposed to a hydro meteorological event that may destroy the mentioned building and in case a loss or a damage occurs to the properties insured by this policy, such books and registries should be handed by the Insured to the Company for their revision.

It is also agreed that the fact that the Company requests or receives such books or registries to examine them, will not constitute any liability, nor renounce of any stipulation or condition of the Policy.

J. - CONTINGENT INSURANCE

COVERED RISKS

Covers the actual loss resulting from the interruption of the business operations as a consequence of the lack of materials delivery to the Insured, from his suppliers due risks of fire and/or lightning or the additional risks contracted in Section I and/or II which cover the direct damage **except the Hydro meteorological phenomenon and/or Earthquake and/or Volcanic Eruption**, that damage the “contributing businesses” specified in this Policy, that are not operated nor controlled by the Insured up to the Sum Insured indicated in the cover page of this Policy.

However, the indemnity will not exceed from the reduction in their “Gross Profits” commercial and/or industrial”, less expenses and charges that do not necessarily continue during the business interruption.

It also covers the expenses that are necessary to incur, in order to reduce the loss, but without exceeding the amount that had been reduced in effect.

To determine the indemnity, the previous experience from the date of the loss and the probable experience after the occurrence of the loss if it had not occurred, will be considered.

The Company will only be liable for the actual loss suffered by the Insured, as a result of the interruption of their operations, but without exceeding from the actual reduction of the Gross Profits, less charges and expenses that do not necessary continue during the interruption and only within the necessary time, so that with the proper diligence and promptness, they conduct the repair, reconstruction or replacement of the properties of the “contributing businesses”

The indemnity period will start counting from the date when the interruption of the operations start and will not be limited by the expiration date of this cover. The expenses will be taken into considerations, including the salaries that have to be paid for the business to operate normally again, with the same service quality they had before the occurrence of the loss.

The Maximum Liability Limit that the Company assumes, will be the one indicated in the Policy cover page and represents the percentage established of the Gross Profits expected of the Insured business for the following twelve months from the initial date of the cover period of this coverage.

In case of a covered indemnity, the Company will reimburse the Insured 100% of the recoverable amounts under this cover, with a limit of the Sum Insured, as long as the Sum Insured represents, at least the same percentage indicated in the list with the Gross Profits that would have been obtained, if the loss had not occurred. In the contrary, the Company will only be liable for a proportion not higher than the loss of the Insured limit compared against the same percentage indicated in the cover.

The Insured should have an insurance in force for the Gross Profits expected from the business at least for the insured percentage, covering the fire risks and/or lightning and additional risks contracted in the direct materials damage insurance except earthquake and/or volcanic eruption, obliging to maintain such insurances in force, and if necessary he will present the increase of the sum insured that will be required to maintain the amount within the contracted percentage; in case of the contrary, the Company could terminate the cover.

Description of contributing businesses.-The Company will not be liable for losses suffered by the Insured and that are caused for damage or destruction of the properties “contributing businesses”, that are not described in the list included in this Policy.

Resume operations.-It is a condition of this insurance that the Insured reduces, as much as possible, the resulting loss of the interruption of operations through the following measures:

- a. Partial or total resume of operations.
- b. Making use of supplying source or materials.
- c. Making use of the stock of raw material, material in process or finished product in the premises occupied by the Insured.
- d. Using his influence to introduce the “contributing businesses”, to use any other available machinery, provisions, or locations, in order to resume the operations and deliver the materials to the Insured, who has to cooperate with the affected business for that effect, but without appealing financing, except if such expense is authorized by this Company.

K. - PARTICULAR CONDITIONS FOR THE CONSEQUENTIAL LOSSES INSURANCES STIPULATED IN THIS SECTION III

1. Interruption by Civil Authority: This cover insures the actual consequential loss without exceeding two consecutive weeks, when as direct result of the damage for the covered risks to the insured properties or to adjacent premises, the access to the premises are prohibited by orders of Civil Authorities.
2. Resume of Operations and Use of other Properties: If the Insured can resume totally or partially their business indicated in these special conditions, by making use of other premises or properties, if by these means the loss covered by this policy could be reduced, such reduction will be taken into consideration when determining the losses that would have to be paid according to this contract.
3. Insured risk occupation changes.-Due to the fact that the fee of this insurance is based on the one that corresponds to apply to the physical damage insurance, the Insured is obliged to communicate the Company any occupation change or alteration of the insured business, so that the Company can adjust the difference in the corresponding Premium. If the change implicates an essential aggravation of the risk and the Insured does not communicate it to the Company within a 24 hour period, the Company will be released of his obligations.
4. Reduction of Insured Expenses: The Insured has the obligation of reducing as much as possible the insured expenses during the indemnity period, in order to reduce the loss.
5. Accounting Registry or Books: For indemnity effects of the present cover, the Insured authorizes the company to revise the accounting registries or books, as well as the official documentation.

- d) The failures that result from the reconstruction or repair of the building, even though if such reconstruction or repair originated the damage suffered by any of the risks covered by this Policy.**
- e) In industrial negotiation, the damage or destruction of finished products, nor for the time it was necessary to reproduce any finished product that could have been damaged or destroyed.**
- f) The suspension, expiration or cancellation of leasing contracts, licenses, contracts, orders or requests, except if such suspension, expiration or cancellation results directly from the interruption of the business in which case the Company will be liable only for such loss, when it affects the Insured's incomes during and limited to the indemnity period covered by the present Policy.**
- g) The construction, repair or replacement cost of the insured properties in Sections I and/or II.**
- h) Investigation cost or any other necessary expense to replace or restore accounting books, plans, maps and files (including, tapes, films, discs or any other magnetic registry for electronic processing) that had been damaged or destroyed for any of the insured risks.**
- i) Market Loss.**

CAUSES FOR CONTRACT CESSATION OF THE CONSEQUENTIAL LOSS INSURANCES.

- a) If after a loss, the Insured will suspend voluntarily his business and will not resume it, this cover will be cancelled and the Company will return the undue premium from the Date of the Loss**

- b) If the business is closed during a consecutive period of twenty or more days.
- c) If the contributing business was presented to a liquidator or union, whether by judicial order, by creditors agreement or by the will of the contributing business shareholders.

ACCOUNTING BOOKS

For indemnity effects of the present cover, the Insured authorizes the company to revise the accounting registries or books.

SUM INSURED. CONSEQUENTIAL LOSSES.

EXTRAORDINARY EXPENSES

The Sum Insured in this Section operates at first risk, therefore the maximum amount to be contracted is free election of the Insured, and therefore the following concepts have to be considered for the determination of such amount:

Extraordinary Expenses: It means the difference between the total costs incurred by the Insured to maintain his business in operation, less the total cost that would have been normally incurred to operate the business during the same period, if the loss had not occurred.

These extraordinary expenses will include in each case, those that are incurred for the obtaining concept or use of properties, or installation of other companies or other emergency expenses.

LOSS OF RENTS

The Sum Insured for the cover of Loss of Rents should correspond to the annual amount of the Rent that the Insured charges to his renters, which will determine the liability limit of the Company.

The Rent concepts are the amounts that the Insured receives for the rent of the insured business but without including:

- Salaries of the landlord, or administrator, if their services are unnecessary after the loss
- Commissions for collecting rents or the building's administration fee.
- Cancelled Taxes
- Heating, water and lighting Cost
- Any other expense ceased as a consequence of the damage, if those were included in the rent.

REDUCTION OF INCOMES FROM COMMERCIAL ACTIVITIES.

The Sum Insured represents the annual amount of incomes, and in case of being lower, the 4th Clause "Indemnifiable Proportion" from the General Conditions will be applicable. It is understood as annual amount of incomes, the amount obtained during the twelve immediate months previous to the date of the loss.

For the determination of the annual amount of incomes, the following will be considered:

- a) The net total sales, plus any other perception derived from the normal operation of the commerce, less
- b) The cost of the sold merchandise, including the packing cost.
- c) The cost of the materials and supplies used in services provided for customers and;

The cost of the services contracted with third parties (except Insured's employees).

No other costs will be deducted.

LOSS OF PROFITS, SALARIES AND FIXED EXPENSES

The Sum Insured represents the annual amount of the concepts of profits, salaries, and fixed expenses insured, and in case it is lower the 4th Clause “Indemnifiable Proportion” of the General Conditions will be applicable.

The Sum Insured for this insurance should be broken down as follows:

- Net annual Profits of the business.
- Annual fixed Expenses that still need to be incurred.
- Annual Salaries of the workers that still need to be paid.

GROSS PROFITS NOT CONDUCTED IN INDUSTRIAL OR COMMERCIAL BUSINESSES AND/OR CONTINGENT.

The Sum Insured should represent the percentage amount contracted by the Insured of the Gross Profits of his business for the twelve months following the initial date of the Policy cover period, and in case it is lower the 4th Clause “Indemnifiable Proportion” of the General Conditions will be applicable.

To determine the annual amount of the Gross Profits, it will be determined from the resulting amount from considering the incomes less the expenses, as follows:

Incomes

- a) Total value of the production at net sale price.
- b) Total value of the merchandise at net sale price.
- c) Value of services provided by the Insured to third parties.
- d) Other incomes derived from the Insured’s operations.

Expenses

- a) Cost of raw material and materials used in the manufacture of the products referred in the incomes item a)
- b) Cost of merchandise including the corresponding packing material.
- c) Cost of raw material and materials used in the services provided by the Insured to third parties.
- d) Value of services provided by the Insured to third parties, who continue under contract.
- e) Value of services provided by the Insured to third parties, who do not continue under contract.

No other cost could be deducted when determining the Gross Profits.

FIXED EXPENSES AND SALARIES FOR EARTHQUAKE AND/OR VOLCANIC ERUPTION

The Sum Insured represents the annual amount of the concepts of salaries and/or fixed expenses, and in case of being lower, the 4th Clause “Indemnifiable Proportion” from the 6th Part of the General Conditions of the Policy will be applicable.

The Sum Insured for this insurance should be broken down as follows:

- Annual fixed Expenses that still need to be incurred.
- Annual Salaries of the workers that still need to be paid.

SECTION IV. LEGAL LIABILITY

A. GENERAL LEGAL LIABILITY COMMERCE AND INDUSTRY

INSURANCE MATTER

SUM INSURED

The Sum Insured for this Section corresponds to the Replacement Value of each of the insured properties.

SECTION X. - MACHINERY BREAKDOWN

COVERED PROPERTIES

Without exceeding the Sum Insured contracted for this Section, the machinery and equipment subject to a mechanic or electric action, or both that are necessary for the Insured's business, described in the Policy specifications, which are properly installed, that operate normally and located in the address indicated in the Policy specifications.

COVERED RISKS

The properties are covered against damage or material losses which they suffer in a sudden or unexpected way, being necessary their repair or replacement so as to leave them in similar conditions as they were immediately before the occurrence of the loss, as a consequence of:

- a) Negligence or sabotage of the Insured's personnel or strangers.
- b) Direct action of the electric energy as a result of short circuits, voltaic arcs, isolation failures, as well as transitory over tensions due to electric perturbations.

- c) Design errors, machinery construction defects, melting defects, and use of defective materials (after the manufacturer's guarantee period)
- d) Labor defects and incorrect assembly.
- e) Rupture due to the centrifuge force.
- f) Strange bodies introduced in the insured properties.
- g) Physical explosion
- h) Other damage not excluded in this Section.

ADDITIONAL RISKS WHICH CAN BE INSURED UNDER EXPRESS AGREEMENT. DAMAGE TO OTHER PROPERTIES OF THE INSURED (D.O.P.A.)

Caused by the explosion of internal combustion motors, or by the detachment of metals due to the centrifugal force, excluding machines that can be insured under this Section, as well as the damage caused by fire. This cover is effective with the limit contracted per claim, which is indicated in the Policy specifications.

EXTRA EXPENSES

This cover insures the expenses for the concepts for over time, extraordinary salaries of workers and employees, transportation expenses for parts that are necessary to accelerate the repair of the insured properties that may result damaged for some of the covered risks.

The extra expenses will never exceed 15% of the material damage amount suffered by the machinery or equipment, nor the 10% of the Sum Insured of each of them.

EXCLUSIONS FOR THE SECTION X MACHINERY BREAKDOWN AND EQUIPMENT

- a) Failures or defects of the insured properties at the initial date of this policy cover period**
- b) Fire, firefighting, collapse or debris removal after a fire, direct impact of lightning, explosions originated in a property different to the affected one and all types of robbery.**
- c) Nature phenomenon such as earthquake, tremor, volcanic eruption, hurricane, cyclone, storms, winds, frost, hail, flood, overboard and increase of water level, silting, sinking and detachment of earth or rocks.**
- d) Strikes, crowds, and civil commotion.**
- e) Loss or damage caused directly from the long term operation or gradual deterioration due to normal use or inadequate operation of the equipment as a consequence of erosion, corrosion, incrustation, rusts and cavitation.**
- f) Fuel, lubricants, refrigerating means and other operation means, except the oil used in transformers and electric switches as well as the mercury used in current rectifiers.**
- g) Transmission bands of all types, transporters bands, matrix, die, molds, dice, dies, stamping rollers, rubber tires, mobile equipment docks, changing and cutting tools, blades, fuses, felts, fabrics, sieves, foundation, supports or structures, coatings, refractory, enameled, as well as any type of glass and pewter, except for the porcelain used in electric isolators**
- h) Loss or damage caused to the insured properties of which the manufacturer, supplier or the maintenance service supplier are legally responsible.**
- i) Change of structure or design, extensions, reductions, change of operation accessories (auxiliary equipment), as well as the installation of parts or use of different operation means to the ones specified by the manufacturer of the machines or insured equipment.**

- j) Temporary repairs conducted to the equipment, except the ones that are part of the definitive repair.
- k) Exceed deliberately the maximum capacity of work of the equipment, established by the manufacturer or submit them to any type of test not related to their normal operation.
- l) Consequential losses such as reduction of incomes, market loss and loss of use.
- m) Additional expenses derived from the need or desire of the Insured of building or replacing the damaged properties in a place different to the one occupied during the occurrence of the loss.
- n) Additional expenses in excess of the replacement value motivated by construction laws or rules, repair or replacement of the damaged properties.

SECTION XI. - BOILERS AND DEVICES SUBJECT TO PRESSURE

COVERED PROPERTIES

Without exceeding the Sum Insured contracted for this Section, the boilers and containers subject to pressure with or without chimney, described in the Policy specifications, which are properly installed, that operate normally and located in the address indicated in the Policy specifications.

EXCLUDED PROPERTIES WHICH CAN BE INSURED UNDER EXPRESS AGREEMENT

a) Pipe lines

This cover insures the pipelines against the risks of rupture or sudden and violent deformation, caused by the steam pressure, air, gas or liquid in such pipelines.

b) Contents of the Insured container.

This cover insures the escape of the fluids or substances contained in any of the insured containers or the damage caused by them, that result from an indemnifiable cover specified in the Policy.

In this cover, as well as the deductible stipulated in the details of the coverage, the Insured will have a 25% participation in the loss.

COVERED RISKS

The properties are covered against damage or material losses which they suffer in a sudden or unexpected way, being necessary their repair or replacement so as to leave them in similar conditions as they had immediately before the occurrence of the loss, as a consequence of:

BOILERS AND CONTAINERS SUBJECT TO PRESSURE WITH CHIMNEY.

- a) Sudden or violent rupture of any part of the boiler or container, caused by the pressure of steam, water or other liquid inside them.

- b) Sudden and violent explosion of gas coming from the unburned fuel inside the furnace of the boiler or container or of the gas conduits, which go from the furnace to its discharge in the chimney and always while using the fuel mentioned in the Policy.
- c) Sudden and violent deformation of any part of the boiler or container, caused by the water pressure or vacuum, steam or other fluid inside them and avoid making its use unsafe.
- d) Cracking of any part of the iron, copper, bronze or any other melted material, in low pressure boilers. (Up to 1.05Kg./cm² in steam and 2.10Kg./cm² in water) as long as such cracking causes a leak of the fluid from the content.
- e) Burn due to lack of water, steam or other fluid inside the boiler or container, which immediately avoids or makes its use unsafe.

CONTAINERS SUBJECT TO PRESSURE WITHOUT CHIMNEY

- a) Rupture caused in a sudden or violent manner, due to the pressure of steam, air, gas or liquid inside the container.
- b) Sudden and violent deformation of the container or any of its parts, caused by the pressure of steam, air, gas or liquid in the container or by vacuum inside the container.
- c) Sudden cracking of any part of the container made of iron, copper, bronze or any other melted metal, in low pressure boilers, as long as such cracking causes a leak of the steam, air, gas or liquid.

ADDITIONAL RISKS WHICH CAN BE INSURED UNDER EXPRESS AGREEMENT

EXTRA EXPENSES

This cover insures the expenses for the concepts for over time, extraordinary salaries of workers and employees, transportation expenses for parts that are necessary to accelerate the repair of the insured properties, which may result damaged for some of the covered risks.

The extra expenses will never exceed 15% of the material damage amount suffered by the machinery or equipment, nor the 10% of the Sum Insured of each of them.

EXCLUSIONS SECTION XI BOILERS AND CONTAINERS SUBJECT TO PRESSURE

- a) Failures or defects of the insured properties at the initial date of this policy cover period.
- b) Fire, whether it occurs before, during or after the occurrence of any of the covered risks.
- c) Explosion that occurs outside the boilers or containers subject to pressure whether it occurs before, during or after the occurrence of any of the covered risks.
- d) Nature phenomenon such as earthquake, tremor, volcanic eruption, hurricane, cyclone, storms, winds, frost, hail, flood, overboard and increase of water level, silting, sinking and detachment of earth or rocks.
- e) Rupture, wear or gradual deterioration due to normal use, erosion, corrosion, incrustation, rusts and cavitation.
- f) Change of structure or design, extensions, reductions, change of operation auxiliary equipment, or use of different fuel from the one indicated in the Policy, unless the Insured notifies the Company 10 days in advance, and the Company had responded in agreement.
- g) Leaks, gradual deformations, evolution of blisters and other imperfections of the construction material of the insured equipment.

- h) Temporary repairs conducted to the equipment, except the ones that are part of the definitive repair.**
- i) Chimneys that are not directly supported by the boiler's structure.**
- j) Normally submit the equipment to higher pressure than the maximum authorized or to any type of test not related to the normal operation of such equipment.**
- k) Electro mechanic failures in equipment that get damaged due to their own operation or by external influence.**

Losses resulting directly or indirectly from:

- l) Business or manufacture process interruption or shutdown.**
- m) Lack of motive power, electricity, heat, steam or refrigeration.**
- n) Claim for loss or damage which third parties may suffer.**
- o) Legal or contract liabilities attributed to manufacturer or seller of the insured properties.**
- p) Expenses incurred by the Insured, as a consequence of the occurrence of a covered risk, for the concept of gratifications or extraordinary loans granted to his employees or workers or fees to technicians whose services had not been authorized by the Company.**
- q) Escape or damage caused to the contents, unless they had contracted the additional cover of contents, in which case the following special exclusions will be applied:**
 - Incorrect operation of the equipment, valves and connections.**
 - Opening of security devices due to over pressure**
 - Fissure and cracking of boilers, containers or pipelines, except the ones indicated in the Policy covered risks.**
- r) Damage to coatings that are not caused by the risks covered by the Policy.**

SUM INSURED

The Sum Insured for this Section corresponds to the Replacement Value of each of the insured properties.

SECOND PART. GENERAL EXCLUSION

EXCLUSIONS FOR ALL COVERS

Under no circumstances will the Company be liable for loss or damage as a consequence of:

PROPERTIES AND RISKS THAT CANNOT BE COVERED.

- a) Soils and lands.**
- b) Frescos or murals that are painted or are part of the insured building.**
- c) Building and contents when under repair or reconstruction process.**
- d) Destruction of the properties due to authority actions legally acknowledged, except they tend to avoid a conflagration, or in fulfillment of a human right, in accordance to their functions.**

THIRD PART. SUM INSURED AND INDEMNITIES

The Sum Insured for these Sections should correspond to the Replacement Value of each of the insured properties.

Every indemnity covered by the insured Sections, will be conducted based on the following:

INDEMNITIES FOR THE INSURANCE OF FIRE AND ADDITIONAL RISKS

Building	Except pact in Contrary Actual Value
Machinery and Equipment	Except pact in Contrary Actual Value
Machinery and Equipment	Except pact in Contrary Actual Value
Raw Materials	Cost Price
Finished Products	Except pact in Cost Price
Debris Removal	Up to Contracted Limit

INDEMNITIES FOR THE COVERS OF ROBBERY OF MERCHANDISE, MONEY AND VALUES, RUPTURE OF GLASSES, LUMINOUS ANNOUNCEMENTS AND CIVIL LIABILITY:

The indemnity will correspond to the actual suffered loss or the obligations per damage, prejudice or moral damage in which the Insured may incur with limit in the contracted Sum Insured.

FOR ROBBERY OF ART WORKS AND ITEMS THAT ARE DIFFICULT OR IMPOSSIBLE TO REPLACE:

In case of partial damage, the Company will be liable only for the repair or restore cost of the insured properties. In case of the total loss, for the commercial or replacement value of the insured objects, or the Sum Insured if it resulted lower.

FOR THE INSURED PROPERTIES IN THE INSURANCE OF ELECTRONIC EQUIPMENT, BOILERS AND CONTAINERS SUBJECT TO PRESSURE AND MACHINERY BREAKDOWN.

TOTAL LOSS

In case of total loss of the insured properties in the different covers corresponding to this Policy, the Company will respond up to the actual value of the damaged property, or up to the Sum Insured specified, if this resulted below such sum insured.

PARTIAL LOSS

In the cases of partial loss, for the covers of damage to machinery and equipment, the claim should contain the expenses that need to be incurred to leave the properties in similar operation conditions as they were immediately before the occurrence of the loss, such expenses could be:

- a) The repair cost, according to invoice presented by the Insured, including the cost of dismantling, re-assembly, uninstall, reinstall, ordinary freight and customs expenses if any. The air transportation expenses will not be an object for the insurance.

FIFTH PART. LOSSES

PROCEDURE IN CASE OF A LOSS.

I. SAFE OR RECOVERY MEASURES

When a loss occurs, produced by any of the risks covered by this Policy, the Insured will have the obligation of performing all the actions that could avoid or reduce the damage. If there is no danger in the delay, the Insured will ask for instructions to the Company and will attend their instructions.

The expenses made by the Insured that are not indicated as excluded, will be covered by the Company, and if they give instructions, they will anticipate such expenses.

Without approval of the Company, the Insured will not be allowed to modify the condition of things, except for public interest reasons or to avoid or reduce the damage.

If the Insured violates the obligation to avoid or reduce the damage or of conserving the invariability of things, the Company will have the right to reduce the indemnity up to the value it reached, if such obligation had been fulfilled. If such obligation is violated by the Insured with a fraud intention, he will lose his rights before the Company.

II. LOSS ADVISE

When a loss occurs that could originate an indemnity according to this insurance, the Insured will have the obligation to present a written communication to the Company, as soon as they have knowledge of the occurrence. The Insured will have a maximum period of 5 (five) days for the notification, which should be written, except in a fortuitous or force majeure case, presenting it as soon as one or the other cease.

If the advice is not presented on time, it could originate that the indemnity be reduced to the amount that the loss could have caused, if the Company had obtained a prompt advice of the loss.

III. COMPANY RIGHTS

In case an indemnifiable loss occurs, which affects the insured properties, the Company could decide to substitute or repair the properties with the Insured's satisfaction, or else pay in cash the amount that corresponds, according to his liability, in the terms of the Policy.

In case of a robbery, or criminal action that could originate a claim covered by this Policy, the Insured will immediately notify the corresponding Authorities as well as the Company, in order to recover the properties or repair the damage caused.

If requested, the Insured will grant as soon as possible, power to the Company or to whoever the Company assigns, to take defense on his behalf and negotiate for the Insured his defense or arrangement of any claim, or if it continues under the Insured's name, for his interest, the indemnity claim or damage or prejudice or any other against third parties, and the Insured will provide all the necessary information for support.

Any help that the Company or his representatives provide to the Insured or third parties, should not be interpreted as liability acceptance.

IV. DOCUMENTS, FACTS AND REPORTS THAT THE INSURED SHOULD PROVIDE THE COMPANY.

The Insured should prove his exact claim and how many parts constitute the claim. The Company will have the right to demand the Insured or his beneficiaries, all type of information about the happenings related to the loss, in order to determine the loss circumstances and consequences.

The Insured will present the Company, the following documentation and facts:

- a) The status of the damage caused by the loss, indicating in the most detailed and exact mode, which were the destroyed or damaged properties, as well as the corresponding damage amount, having in consideration the replacement value of such properties, at the moment of the loss.
- b) A detailed list of all the insurances they have of the properties.

- c) All the plans, projects, books, receipts, invoices, copies or duplicates of invoices, justifying documents, certificates and any document that can support the claim.
- d) All the information related with the origin and cause of the damage, as well as the circumstances in which it was produced, and upon the Company's request, certified copies of the actions conducted by the Public Ministry or by any other authority that could have participated in the investigation of the loss or the happenings related to the loss.
- e) Without prejudice of the documentation and information mentioned above, the occurrence of the loss will be considered proved for the effects of this insurance, only by presenting the criminal complaint, its ratification and proof of property and pre-existence.

Regarding civil liability, in case of litigation, the Insured should provide all the necessary information and proof for the defense of all civil or criminal procedures that could initiate as a consequence of the demand or claim that could have caused directly or indirectly any accident related to the risks covered by the Policy.

The Insured should send the Company, as soon as he receives, all the mail, complaint, claim, judicial order, subpoena, or requirement related with any claim covered by this Policy.

The Company will not be obliged for recognition of debts, transactions or any other juridical action of similar nature, arranged without its knowledge.

V. MEASURES THAT THE COMPANY COULD TAKE IN CASE OF A LOSS

In every case of loss that destroys or damages the properties and as long as the amount of the corresponding indemnity has not been definitively fixed, the Company could:

- a) Enter the buildings or premises where the loss occurred to determine its cause and extension
- b) Examine, classify and valuate the properties wherever they are. The Company is not obliged under no circumstance to control the sale or settlement of the properties or remains, and the Insured will not have the right to abandon those for the Company.

FOR SECTION IV GENERAL CIVIL LIABILITY. CLAIM ADVICE.

The Insured is obliged to communicate the Company, as soon as they have knowledge, about the claims or complaints received by him or his representatives, for which he will present the documents or copies of those, which had been provided for that motive, and the Company is obliged to indicate it immediately in writing, that they do not assume the direction of the process, if that was his decision.

If they do not make such manifestation as expected, it will be understood that the Company has assumed direction of the process against the Insured and he should cooperate with the Company in the terms of the following Clause items.

In case the Company does not assume the direction of the process, they will provide an advance payment to the Insured, up to the amount they were obliged to pay for this concept, in order to pay for the defense expenses, which should be conducted with the proper diligence.

COOPERATION AND ASSISTANCE OF THE INSURED REGARDING THE COMPANY

The Insured is obliged, in every procedure that could initiate against him, based on the liability covered by the insurance to:

- Provide the necessary facts and proofs that had been required by the Company for his defense, in case it is necessary or when the Insured does not appear.
- Exercise and make valid the actions and defense to which he has the right.
- Appear in all procedures
- Grant power to the lawyers assigned by the Company to represent him in the mentioned procedures, in case he cannot participate directly in all negotiations of such procedures.

All the expenses conducted by the Insured, to comply with those obligations, will be absorbed by the Sum Insured related to the defense expenses.

If the Company acts negligent with the determination or direction of the defense, the liability regarding the expenses amount of such defense will not be subject to any limit.

CLAIMS AND COMPLAINTS.

The Company is capable of conducting settlement of the extra judicial or judicial claims, to direct the trials or promotions before the authorities and make agreements.

It will not be opposed to the Company any recognition of debt, transaction, agreement, or other juridical action that implicates recognition of the Insured's liability, arranged without approval of the own Company, with the purpose of pretending a liability, which in other way will be non-existent or lower to the actual one. The confession of a happening from the Insured cannot be assimilated to the recognition of a liability.

INSURANCE BENEFICIARY.

The present insurance contract, attributes the right to the indemnity directly to the third party damaged, that will be considered as his beneficiary, since the moment of the loss.

REIMBURSEMENT.

If the third party is indemnified, in all, or part by the Insured, he will be reimbursed proportionally by the Company.

SUBROGATION.

In the terms of the Law, once the corresponding indemnity is paid, the Company will subrogate, up to the amount paid in all rights against third parties, who for the cause of the indemnified damage correspond to the Insured, however, when it consists on actions committed by persons for who the Insured was legally responsible, to be considered for these effects, also as insured, there will be no subrogation.

If the damage was indemnified only in part, the Insured and the Company will concur to make their rights valid in the corresponding proportion.

SIXTH PART. APPLICABLE CONDITIONS TO ALL SECTIONS OF THIS POLICY

1st CLAUSE. COVER PERIOD

The insurance cover period starts and concludes at 12:00 hrs. of the dates specified in the Policy cover page.

2nd CLAUSE. GEOGRAPHIC LIMIT

This Policy only provides coverage against loss and/or damage which occurs or expenses incurred within the territory limits of Mexico, except the damage caused abroad to Mexican properties and/or interests that are specified in the Policy.

Applicable to the Civil Liability, when the coverage corresponding to “Civil Liability for Damage Abroad” is contracted.

3rd CLAUSE. RISK AGGRAVATION

The insured should communicate the Company any circumstance which during the insurance cover period, may cause an essential aggravation in the covered risks, within the 24 hours following the moment when they have knowledge of the loss.

Should the Insured fail to comply with the Company's requirements, the Company will not be liable for loss or damage arising as a consequence of the aggravation of the risk.

4th CLAUSE. INDEMNITY PROPORTION

APPLICABLE TO SECTIONS I FIRE BUILDING AND/OR II FIRE CONTENTS, SECTION III CONSEQUENTIAL LOSSES, SECTION VI LUMINOUS ANNOUNCEMENTS, SECTION IX ELECTRONIC EQUIPMENT, SECTION X MACHINERY BREAKDOWN AND SECTION XI BOILERS AND DEVICES SUBJECT TO PRESSURE

The Sum Insured has been fixed by the Insured, and is no proof of the existence nor the value of the insured properties, it only represents the base to delimit the maximum liability of the Company.

If by the occurrence of the loss, the insured properties, have altogether a value below their actual or replacement value, according to insuring option selected by the Insured, the Company will only respond proportionally to the suffered damage.

If the Policy has various items, this condition will be applicable to each of them separately.

For the Consequential Loss insurance, the Sum Insured should represent:

- A. Reduction of Incomes due to Commercial Business Interruption:** The period in months that he wishes to insure of 100% of the annual incomes.
- B. Loss of Profits, Salaries and Fixed Expenses:** The period in months that he wishes to insured of 100% of the sum of profits, salaries, and annual fixed expenses.
- C. Gross Profits not conducted in commercial and/or industrial businesses:** The percentage that he wishes to insure of 100% of the annual Gross Profits.

- D. Contingent Insurance:** The percentage that he wishes to insured of 100% of the annual Gross Profits.
- E. Insurance of salaries and/or fixed expenses for earthquake and/or volcanic eruption:** The period that he wishes to insure of 100% of the sum of salaries and annual fixed expenses.
- F. Insurance of salaries and/or fixed expenses for hydro meteorological phenomenon:** The period he wishes to insure of 100% of the sum of salaries and annual fixed expenses.

If by the occurrence of the loss, the Sums Insured do not agree with the insuring option selected by the Insured, the Company will only respond for the percentage that the contracted sum represents.

5th CLAUSE. INDEMNITY IN CASE OF LOSS FOR OBJECTS THAT CONSTITUTE A PAIR OR A SET

When one of the insured objects forms a pair or a set, the Company will only pay for the value of the lost or damaged part or parts, and under no circumstance will they be liable for the value of the complete pair or set.

6th CLAUSE. PREMIUMS

Article 40. If the Premium or the first fraction of the Premium had not been paid, in the case of partial payments, within the agreed term, which could not be lower than three days, nor higher than 30 natural days following their expiration date, the effects of the contract will cease automatically at 12 hrs. of the last day of that period. If the term has not been agreed, a period of 30 calendar days shall apply from the date of its expiry.

Unless otherwise agreed, the term referred to in the preceding paragraph shall not apply to compulsory insurance as referred to in Article 150 Bis of this Law.

The agreed Premium should be paid at the offices of the Company, by receiving the corresponding receipt.

7th CLAUSE. REHABILITATION

Notwithstanding the indication in Clause 6 "Premiums", this Sixth Part, the Insured could, within the thirty days following the last day of the grace period indicated in such Clause, pay the Premium of this insurance or the corresponding part, if a fractioned payment has been agreed; in this case, for the only fact of the mentioned payment, the effects of this insurance will be rehabilitated starting on the hour and date indicated in the payment voucher and the original term will be extended automatically for an equal period to the one between the date when the grace period concluded and the hour and day when the rehabilitation becomes effective.

However, if when the referred payment is conducted, the Insured requests through a written document that this insurance conserves its original term, the Company will adjust, and if necessary will reimburse the undue Premium corresponding to the period during which the effects ceased, according to Article 40 of the Insurance Contract Law, of which their initial and terminal moments are indicated at the end of the preceding paragraph.

In case the hour is not indicated in the payment voucher, the insurance will be considered rehabilitated since zero hours from the payment date.

Without prejudice of its automatic effects, the rehabilitation to which this Clause refers to, should be approved by the Company for administrative purposes, in the issued receipt, for the corresponding payment and in any other document that may be issued after such payment.

8th CLAUSE. INSURED'S PARTICIPATION

When indicated in the Policy specifications, the Insured will absorb the Deductible and/or Coinsurance and/or Waiting Period for each contracted Section and Coverage, as indicated below:

DEDUCTIBLE

Deductible will be understood to mean the amount that the Insured will support on his account when a loss occurs, due to a risk covered by the Policy, if the loss amount is higher to the amounts indicated in the policy cover page, the Company will indemnify the loss in excess of the deductible, or up to the limit established for the affected cover.

For Sections I and/or II the deductible will be applied to each building or structure separately, including its contents, independently if the properties are insured in one or various items, or in one or various Policies.

For Sections VI, IX, X and XI the deductible will be applied to each equipment, machinery or device separately.

COINSURANCE

Coinsurance will be understood to mean the percentage of the loss or damage that the Insured will support on his account when a loss occurs, due to a risk covered by the Policy, if the loss amount is higher to the amounts indicated in the policy cover page, the Company will indemnify the loss, less the percentage of the Insured's participation, or up to the limit established for the affected cover.

WAITING PERIOD

The waiting period will be understood to mean the days in which the Insured will support on his account the consequential loss generated for the occurrence of the risks insured in the physical damage coverage, in such virtue, the cover of this Policy starts after the waiting period has passed.

9th CLAUSE. OTHER INSURANCE

If the insured or anyone representing the insured's interests, takes out during the term of this Policy, other insurance covering the same risks to the goods or persons covered by this Policy, he shall immediately notify the Company, by written notice, indicating the name of the insurers and the Insured Sums contracted.

Should the insured intentionally fail to inform the company or if the insured takes out more than one policy in an effort to obtain an illicit gain, the company will be released from his obligations.

10th CLAUSE. REDUCTION AND REINSTATEMENT OF THE SUM INSURED

All indemnities paid by the company will reduce the sum insured by the same amount in connection with any of the covers in this Policy affected by the claim. However, this sum may be reinstated at the insured's request and subject to approval on the part of the company, subject to the payment of the corresponding additional premium.

11th CLAUSE. ARBITRATION (EXPERT APPRAISAL)

In the event of any dispute between the insured and the company with respect to the amount of any loss or damage, the question will be submitted to an arbiter, named in writing by mutual agreement between the parties. However, should the parties be unable to reach an agreement with respect to the naming of a single arbiter, two will be named; one by each party. Said arbiters will be named within a period of ten days, as of the date on which

one of the parties requests, in writing, that the other do so. Prior to beginning their work, the two arbiters will appoint an umpire to settle any unresolved matters.

If one of the parties refuses or fails to appoint an arbiter, after having been requested to do so by the other party, or if the arbiters fail to reach an agreement with respect to the naming of the umpire, then, at the request of either one of the parties, the judicial authorities will be responsible for appointing the arbiter, the umpire, or both, should such be necessary.

The decease of one of the parties when being a physical person or its dissolution if it was a moral person, occurred while conducting the arbitration, the power and attributes of the arbiter or arbiters, or the third party will not be affected or canceled, or if one of the arbiters or the third party died before the judgment, another one will be assigned by whoever corresponds (the parties, the arbiters or the Judicial Authority) to be substituted.

The costs and expenses arising as a consequence of the arbitration will be shared equally by the insured and the company. Each party, however, will be responsible for the fees charged by its arbiter.

The arbitration referred to in this clause shall not be interpreted as an acceptance of the claim on the part of the company, but rather will be carried out simply to determine the circumstances and the amount of the claim which the company may eventually be under the obligation to pay. The parties will remain free to exercise their corresponding rights and defenses.

12th CLAUSE. FRAUD, BAD INTENTIONS, BAD FAITH OF INSURED

The company will be released from its obligations:

- a) If the insured, the beneficiary or their representatives-with the intention of causing the company to make an error-misrepresent or present false declarations with respect to any fact which could exclude or limit the company's obligations.
- b) If, with the same intention, the insured, the beneficiary or their representatives fail to provide the company in a timely manner with the documentation and information related to the loss, with which the circumstances and consequences could be determined.
- c) If in connection with the loss or the claim there is fraud or bad faith on the part of the insured, the beneficiary or their representatives.

13th CLAUSE. RIGHTS SUBROGATION

In the terms of the Law, the company will be subrogated in the rights of the insured, for up to the amount paid, as well as in the insured's actions against those responsible for a loss. At the company's request, the insured will ratify the company's subrogation rights before a public notary. If, by any act or omission on the part of the insured, the company's subrogation rights are impeded, the company will be released from its obligations.

The subrogation right will not proceed in case the Insured has a marital relation or blood relation with the person that had caused the damage, or if he is legally responsible of the same. If the loss is only partially indemnified, the insured and the company will exercise their rights in the proportion corresponding to each.

14th CLAUSE. PLACE AND PAYMENT OF INDEMNITIES

The company will pay all claims at its offices within a period of 30 days, as of the date on which the company has received all the documentation and information required to understand the basis of the claim, in the terms of the Claims Section of the Policy..

15th CLAUSE. CURRENCY

Both the premium and any claims arising under the terms of this policy will be paid in the currency indicated in the policy schedule and in Mexico City, subject to the terms of the currency law in effect on the date of payment.

16th CLAUSE. JURISDICTION

In the event of controversy, the plaintiff must first present a complaint before the Financial Services Law, and upon election determine the jurisdiction for territory regarding the address of any of the delegations from the National Commission for the Protection and Defense of the Financial Services Users. Should the commission not be designated to serve as the arbiter in the dispute, the judge from such delegation will be competent.

17th CLAUSE. COMMUNICATIONS / NOTIFICATIONS

Any declaration or communication related to the present contract, should be sent to the Company, in writing, directed to the Company's address as indicated in the Policy cover page.

In the event that the address of the Company's office were different to the one indicated in the Policy cover page, the Company should inform and notify the Insured, for any communication that the Insured should send and for any other legal effect.

The requirements and communications that the Company should have with the Insured, will be valid if they are made in the last address known by the Company.

18th CLAUSE. ANTICIPATED END OF CONTRACT

Despite the policy period for which this insurance has been granted, the parties hereto agree that the contract may be canceled prior to its expiration date, by means of written notification. If the insured cancels the policy, the company will have the right to that part of the premium corresponding to the time during which the policy was in effect, in accordance with the following short term insurance rate table registered by the National Commission of Insurance and Bonds.

**FEE FOR INSURANCE AT SHORT TERM
(Except for Hydro meteorological risks)**

If the company cancels the policy, written notification will be sent to the insured and the insurance will cease to be in effect fifteen calendar days after notification has been made.

The company must return the unearned premium to the insured at the time such notification is given. The failure on the part of the company to comply with this requirement will render the cancellation notice null and void.

19th CLAUSE. PRESCRIPTION

All the actions derived from this contract will prescribe in two years, according to the terms of Article 81 from the Insurance Contract Law, it will count from the date of the circumstances that originated the loss except the exception cases indicated in Article 82 of the same Law.

The prescription will be interrupted not only for the ordinary caused, but for those referred in the Law for the Protection and Defense of the Financial Services Users.

20th CLAUSE. BENEFITS FOR THE INSURED

If during the term of this Policy, the authorities register new covers or extensions, without an additional Premium charge, they will be applied automatically, for the Insured's benefit.

Likewise, if during the cover period of this insurance, the registered fees were reduced, the termination of this contract or before upon the Insured's request, the Company will pay the difference between the agreed Premium and the modified Premium since the date of such reduction until the termination of the Insurance.

21st CLAUSE. INSPECTIONS

The company will, at all times, have the right to carry out inspections of the insured property. Said inspections will be carried out during regular working hours and by individuals duly authorized by the company.

This right does not constitute an obligation on the part of the company to carry out inspections on specific dates, nor at the request of the insured or their representatives.

The insured will be under the obligation to provide the company with all the necessary details and information so as to determine the characteristics and nature of the risk.

The company will provide the insured with a copy of the inspection report. Said report will be handled in the strictest confidence.

If the inspection revealed any circumstance that could motivate the essential aggravation of the risk, the Company could send a notification to the Insured to the address indicated in this Policy by telegram, fax or certified letter indicating:

- Rescind the coverage, in the terms of Clause 18 "Advanced termination of Contract".
- Grant the Insured a 15 day period to correct such aggravation. If the Insured did not correct it within the established period, the Company could terminate the insurance contract in the terms of Clause 18 "Advanced termination of Contract" and Clause 3 "Risk Aggravation".

22nd CLAUSE. SECURITY MEASURES

According to the security measures that appear in the BASE CONDITIONS of the cover page of this Policy and that were base for the corresponding quotation, the Insured is obliged to maintain them during all the cover period of this Policy, on the contrary the Company will be released from every liability, as long as this omission influenced on the occurrence of the loss.

23rd CLAUSE. FLAMMABLE OR EXPLOSIVE SUBSTANCES

Exclusive for Sections I and/or II

When this Policy indicates flammable or explosive substances, such percentage will be calculated over the total value of the stock, considering as flammable or explosive substances, all substances in solid, liquid or gaseous condition with flammability point at 93° C or 200°F, such as:

24th CLAUSE. MORATORIUM INTEREST

In the event that the Company, despite having received the documents and information enabling it to know the merits of the claim submitted to it, does not comply with the obligation to compensate the Insured or the Beneficiary shall pay to the Insured or its Beneficiaries compensation for arrears in accordance with **Article 276 of the Law On Insurance And Bonding Institutions**, which reads as follows:

ARTICLE 276. - If an Insurance Institution does not comply with the obligations assumed in the insurance contract within the time limits legally provided for its performance, it shall pay the creditor compensation for arrears in accordance with the following:

- I. Obligations in national currency shall be denominated in Investment Units, at the value of these at the date of expiry of the periods referred to in the initial part of this article, and shall be paid in national currency, the value of the investment units at the date of completion of the investment, in accordance with the second paragraph of Section VIII of this Article.
In addition, the Insurance Institution shall pay a standstill interest on the obligation denominated in Investment Units in accordance with the provisions of the preceding paragraph, which will be capitalised monthly and whose rate will be equal to the result of multiplying by 1.25 the cost of collecting forward liabilities denominated in Investment Units of the country's multiple banking institutions, published by the Bank of Mexico in the Official Journal of the Federation, corresponding to each month in which there is a delay;
- II. Where the principal obligation is denominated in foreign currency, in addition to the payment of that obligation, the Insurance Institution shall be obliged to pay a standstill interest which shall be capitalised monthly and calculated by applying the amount of the obligation itself, the percentage that results from multiplying by 1.25 the cost of forward collection of liabilities denominated in United States dollars of the country's multi-bank institutions, published by the Bank of Mexico in the Official Journal of the Federation, corresponding to each month in which there is a delay;
- III. If the reference rates for the calculation of interest on arrears referred to in paragraphs I and II of this Article have not been published on the date of the calculation, the reference rates for the calculation of interest on arrears referred to in paragraphs I and II of this Article shall apply for the month immediately preceding and, in the event of non-publication of such fees, default interest shall be computed by multiplying by 1.25 the rate replacing them, in accordance with the applicable provisions;
- IV. The standstill interest referred to in this Article shall be generated per day, from the date of expiry of the periods referred to in the initial part of this Article until the date on which the payment provided for in the second paragraph of Section VIII of this Article is made. For their calculation, the reference rates referred to in this Article shall be divided by three hundred and sixty-five and multiplied by the number of days corresponding to the months in which the non-compliance persists;

V. In the event of repair or replacement of the damaged object, the delay compensation shall consist solely of the payment of interest in the currency in which the principal obligation is denominated in accordance with parts I and II of this Article and shall be calculated on the amount of the cost of the repair or replacement;

VI. The rights of the creditor to the compensatory benefits provided for in this article shall not be waived. An agreement that seeks to extinguish or reduce them shall have no legal effect. These rights shall arise only within the time limit established by law for the payment of the principal obligation, even if the principal obligation is not liquid at that time.

Once the amount of the principal obligation has been fixed in accordance with the agreement of the parties or the final decision handed down in court before the judge or arbitrator, the compensatory benefits provided for in this Article must be covered by the Insurance Institution in the amount of the principal obligation thus determined;

VII. If, in the respective proceedings, the claim is admissible, even if the payment of the delay compensation provided for in this article has not been demanded, the judge or arbitrator shall, in addition to the principal obligation, shall order the debtor to also cover those benefits in accordance with the foregoing fractions.

The payment made by the insurance institution shall be made in a single exhibition comprising the total balance for the following items:

- A. Interest on arrears;
- B. The update referred to in the first paragraph of part I of this Article; and
- C. The primary obligation.

In the event that the insurance institution does not pay in a single instalment the full amount of the obligations assumed in the insurance contract and the indemnity for arrears, the payments you make will apply to the items listed in the order set out in the previous paragraph, so that the compensation for arrears will continue to be generated in terms of this Article, on the amount of the principal obligation not paid, until it is fully covered.

Where the institution submits a defence which suspends the enforcement procedure provided for in this act, and where a final judgment is delivered in which the contested acts remain, the corresponding payment or recovery shall include the payment of compensation for arrears which until that time resulted in the principal obligation; and

IX. If the insurance institution, within the statutory time limits and terms, fails to pay the arrears, the judge or the National Commission for the Protection and Defense of Financial Service Users, as appropriate, will impose a fine of 1000 (thousand) to 15000 (fifteen thousand) days' salary.

In the case of the administrative enforcement procedure provided for in Article 278 of this Law, if the insurance institution, within the legal time limits or terms, does not make the payment of the indemnities for arrears, the Commission shall impose the fine indicated in this fraction, at the request of the relevant executing authority in accordance with part II of that Article.

25th CLAUSE. COMMISSIONS REVELATION

During the policy period, the contracting party could request the Company by writing, to inform the percentage of the Premium, which by commission or direct compensation concept corresponds to the intermediary or moral person for his intervention in this contract. The institution will provide such information, in writing or by electronic means, in a period that will not exceed ten working days after the date when the request was received.

26th CLAUSE. ARTICLE 25 FROM THE INSURANCE CONTRACT LAW

If the Policy content or its modifications did not agree with the offer, the Insured could ask for the corresponding rectification within the 30 (thirty) days following the day when the Policy was received. After this period, the Policy stipulations or modifications will be considered accepted.

SEVENTH PART .DEFINITIONS

ACCESSORIES

Pieces or mechanic sets that are assembled on a machine or equipment to transform it or simply to increase its performance, facilitate its operation or make it regular or safe, but without considering the structures or supports.

ACTUAL VALUE

- Building: Is the cost that will be necessary to incur for the reconstruction and/or repair of the damaged or destroyed property considering deduction for physical depreciation for the effects of time, wear and/or use.
- Contents: Is the purchase cost, installation or repair of the properties for others of equal class, quality, size and/or capacity, considering deduction for physical depreciation.
- Merchandise: Is the acquisition Price for the Insured.
- Inventory: The production cost.
- In machinery, equipment, furniture and utensils: The amount that will be necessary to incur to repair or replace the damaged or destroyed property for another one of the same class, quality, size or production capacity, deducting the physical depreciation for use.

ART OBJECTS

Those objects elaborated by an artist or artisan, for decorative purposes, which comprehend the use of applied arts like ceramic, metalwork, furniture, tapestry and enamel.

AUXILIARY EQUIPMENT

The fuel burners, grills, economizers, air pre-heaters, panels and control equipment and injectors that are in the structure of the boilers or containers with chimney.

Gasses bottled with pressure.

Sodium and potassium hydroxide in solid condition or in solution with a concentration from 50 to 70% (from 48-55 degrees be).

Metallic lithium

Metallic magnesium

Wick mining.

Black smoke (mineral, vegetal or animal).

Nitrates and nitrites.

Dry pastures.

Antimony pentasulphide

Permanganates

Peroxides.

Aluminum and magnesium powder

Organic material powder.

Metallic potassium

Phosphorus sesquisulphide

Metallic sodium.

Antimony sulfide.

Hydrogen sulfide.

Dyes prepared with organic solvents (excluding those that are hermetically closed in containers).

Note: Every time the Word flammable is mentioned in these conditions, it should be understood as flammable and/or explosives).

FLOOD

The accidental temporary covering of the soil by water as a consequence of the deviation, overflow or rupture of contention walls of rivers, canals, lakes, dams, ponds and other deposits or water currents, natural or artificial.

FLOOD CAUSED BY RAIN

The accidental temporary covering of the soil by rain water, as a consequence of unusual and fast accumulation or displacement of water originated by extraordinary rain, that fulfill any of the following characteristic:

- That the rain reaches at least 85% of the average of the maximum from the occurrence zone in the last ten years, according to the procedure published by the Asociación Mexicana de Instituciones de Seguros (A.M.I.S.),

measured in the closest meteorological station, certified by Servicio Meteorológico Nacional de la Comisión Nacional del Agua or that the insured properties are within a flooded zone that had covered at least an hectare.

FORTUITOUS

A happening occurred without the intervention of the human will.

FOUNDATION

Part of a building that is underground or under the first level with access, made of masonry, armed concrete, steel or concrete, which transmits the loads that a structure supports.

FRANCHISE

Amount that the Insured supports on his account when a loss occurs. If the loss amount is higher than such amount, the Company will indemnify the total loss or up to the limit established for such cover.

Alteration of the sea, consisting on an over elevation of its level due to a meteorological perturbation or depression which combines a decrease of the atmospheric pressure and a cutting force over the sea surface produced by the winds.

TOPOGRAPHIC DEPRESSION

Relief area located in a lower level than the neighbor surface.

TRANSMISSIONS

It is understood as transmission every mechanism that communicates the movement of the same object to another one through bands, chains and shafts, assimilating to this definition the pipelines that conduct fuel, air water and steam.

VAULT

Place to keep valuable properties, with brick walls, concrete, granite, tile, iron or steel, with combination locks and iron or steel door.

VOLCANIC ERUPTION

Frequently violent emission of solid, liquid and gaseous materials, penetrating deeply to the ground surface, through a crack or crater.

WAREHOUSE

Premises used exclusively to keep merchandise.

ADDITIONAL DEFINITIONS FOR THE COVER OF HYDRO METEOROLOGICAL RISKS (IN CASE OF BEING CONTRACTED)

a) Sewerage

Network of underground Canals which along the streets receives the dirty waters and the domestic and industrial detritus, as well as the rain water, taking them to depurating installations or it pours them in a river or sea.

b) Mobile Property

Any property that by nature can be transferred to a place or another, such as portable machinery, furniture, stock, raw materials, finished product or in process, parts, accessories among other.

c) Building in demolition

Building or construction where a physical work is conducted intentionally, the objective is the dismantling, collapse or destruction in a partial or total form.

d) Building in reconstruction

Building or construction where a physical work is conducted in a planned and organized manner, the objective is to build it again, re-establishing the same physical and functional characteristics it had since its origin.

e) Building in remodeling

Building or construction in which physical work is conducted to modify or transform it, changing its physical or functional characteristics in a partial or total manner, as long as it does not implicate the modification of its structural support or frame.

f) Building in repair

Building or construction in which physical work is conducted with the objective of returning the building to its physical or functional condition it had before the occurrence of the material damage that motivated such work.

g) Walls of light materials

The ones built with materials different to Stone, brick, big brick, cement block, “tepetate”, adobe or armed concrete.

h) Locations situated in the first line in front of the sea, lake or lagoon, set of insured properties under a same address where its first edification in straight line to the water fountain, is at less than:

- 500meters of the wave breaking line in high tide.
- 250meters of the “Rivera” of the lake or lagoon.
